

WAR FATE OF EUROPE, U. S., TOLD BY PREMIER

Monroe Doctrine Would Have Been Torn to Bits if Germany Won, Declares Lloyd George

TEACH GERMANY TO SPELL "RESTORATION"

Glib Talk of Peace Insincere, Great Meeting Hears; Summit of Ally Hope Now Near

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

"What would have happened had the German world ambition not been checked is told by Premier Lloyd George in these words: "Europe would have been at the mercy of a cruel military power. Russia would have disintegrated sooner. France would have fought bravely, but might have been overwhelmed. America's Monroe doctrine would have been treated as a scrap of paper."

LONDON, Aug. 4.—David Lloyd George, the British premier, in the presence of a distinguished gathering, representative of all parties, which met this afternoon in Queen's Hall to mark the third anniversary of the declaration of war, reiterated the aims for which the entente allies are fighting and indicated the only consistent policy to a suspension of hostilities with the central powers. The meeting was held under the auspices of the national war aims committee and was probably the greatest patriotic demonstration of the year. The expectation had been that the premier's speech would be a most important one.

WAR AMBITIONS OF PRUSSIA CHECKED

As Foreign Minister Sonnino of Italy and the other representatives of the entente allies reached the platform the gathering rose and cheered again and again, while the playing of the national anthems of the allies aroused tremendous enthusiasm.

Premier Lloyd George's appearance was the signal for a remarkable manifestation of popular fervor.

The premier in opening his address, asked what would have happened if Great Britain had not entered the war. He answered this question by saying: "Europe would have been at the mercy of a cruel military power. Russia would have disintegrated sooner. France would have fought bravely, but might have been overwhelmed. America's Monroe doctrine would have been treated as a scrap of paper. The fact today is that we have checked the ambitions of Germany."

In the course of his speech Premier Lloyd George said: "Victory must be so complete that our national liberty never again shall be challenged."

"Russia learned that an army without discipline is a rabble."

"There are some here who want to set up committees for the British army and direct the conduct of the war. We cannot allow a sectional organization to direct the war or dictate the terms of peace. The nation as a whole made war and the nation as a whole must make peace."

TEUTONS STAMMER OVER WORD "RESTORATION"

The British prime minister said he did not trust the German peace talk. "Neither the Kaiser nor the chancellor," he declared, "has yet said he would be satisfied with German soil. They talk glibly about peace, but stammer over the word restoration. Before we have a peace conference they must learn to use the word restoration. So far they have not learned even the first letter of that alphabet. War is a ghastly business, but it is not so bad as their peace. While they know their plot has miscarried this time, the Prussian war lords have determined to succeed the next time. There must be no next time. This generation must eliminate war from the tragedies of human life."

Continuing, Lloyd George said: "If we sow seeds of discontent and disunion in the nation we shall reap defeat. A nation which falters before it reaches its purpose will never become a great people."

"No one in Great Britain, France, Italy and Russia or even in Germany and Austria has any idea how near we are today to the summit of our hope."

WILL HOLD SEAT

PARIS, Aug. 4.—Socialist deputies in the chamber decided last night, by a vote of 58 to 9, that Albert Thomas, minister of munitions and member of the war council, shall continue as a member of the government. It was pointed out that in view of the Socialist opposition to imperialist war aims the withdrawal of M. Thomas at this time might be misunderstood.

EAST BAY FOLK TO FIGHT BIG INCREASES NOW SOUGHT BY S. P.

Request for Jump of 50 to 300 Per Cent for Carrying Local Passengers Made to State Railroad Board; High Rates COMMUTERS ARE INDIGNANT

Here are some of the increases sought by the Southern Pacific Company:

Between San Francisco and—	Proposed one-way fare	Present one-way fare	Between San Francisco and—	Proposed one-way fare	Present one-way fare

14th and Franklin	4.25	3.00			

East bay commuters, business men, industrial interests, city attorneys of municipalities and members of civic, improvement and commercial organizations are up in arms today over the proposed increase in one-way and individual commuters' rates between east bay points and San Francisco ranging from 50 to 300 per cent which have been petitioned by the Southern Pacific Company of the State Railroad Commission.

The revised schedule, which took effect Monday night of last week, between Oakland and the University campus, is staggering in its increases. Fares which have been 10 and 15 cents for one-way trips have been jumped to 40 and 50 cents, with corresponding increases in 33 commuter books to as high as \$6. On the harbor ferry, which leaves from the foot of Broadway and on which the fare for years has been 5 cents a trip, will, under the proposed arrangement, be raised to 10 cents.

There will be a special meeting Monday night of the board of directors of the Chamber of Commerce to discuss the situation. Tentative plans for opposition to granting the request in full will be made and submitted to a meeting of the board of directors of the Chamber of Commerce to discuss the situation. Tentative plans for opposition to granting the request in full will be made and submitted to a meeting of the board of directors of the Chamber of Commerce to discuss the situation.

SOME GROUNDS FOR RAISE, SAYS BAXTER

That the Southern Pacific Company may have good grounds for its request to increase east bay rates was the statement of George P. Baxter, chairman of the board of directors of the Oakland Chamber of Commerce.

"We must be fair in these matters," he said. "Everything has gone up and it doesn't seem improbable that the railroads, with their tremendous increase in operating costs, should ask for higher rates of transportation. If the rates are not high enough to allow the stockholders a fair profit, the company must either go broke or give inferior service."

"If the people expect good service from a corporation, they must be reasonable. Take into consideration the operation of trains has increased and there should be no objection to a fair increase."

"There is one thing that has been done before and one that we must guard against. That is the overcapitalization of the company's investment in giving reasons for such an increase. If the company has been operating on a business-like basis and cannot make a fair profit, I see no reason why the people of the east bay district should object to the increase."

Morf Says Rates Should Remain Same

City Attorney Paul C. Morf stated that the city will appear as interested party in the hearing before the State Railroad Commission on the application of the Southern Pacific Company for an increase in its fare schedule on its electric lines and bay ferry connections.

"We will appear in the matter the same as in the similar application of the San Francisco-Oakland Terminal Railway," said Morf. "It is to the interest of Oakland that the rates remain the same as they now are."

"This is not in the nature of a partisan but a regulatory proceeding by which the sovereign body is asked to determine the rate of charge. It will be similar to the water rate hearing, which consumed many weeks of labor, but it would probably not last so long."

"All that we can do is to watch the proceedings to see that the values of the investment are not inflated and that the overhead expense is not overestimated. This will be done with every effort to protect the interests of the city."

ADVISES HEARST

WASHINGTON, Aug. 4.—The Washington Times, owned by Arthur Brisbane, today editorially advised Mr. Hearst most earnestly not to accept the mayoralty nomination accorded him by New York Independent.

675 SHIPS IN YARDS TO BE TAKEN OVER

Government Action Dispatched to Yards Affected; More to Be Requisitioned by Board

Local Plants Affected to Tune of 200 Craft; 200,000 Tons Involved in the Bay Region

More than 200,000 tons in local shipbuilding was commandeered today as a result of the sweeping emergency fleet corporation order which was sent broadcast this morning to all shipyards in the country. The order will affect more than 2,000,000 tons on the coast, representing some 250 vessels now under construction for foreign as well as American owners. In the east bay district the Moore & Scott Shipyard, the Union Iron Works and the Hanlon Shipbuilding and Drydock Company will be the hardest hit.

Under the federal order work on existing contracts is to be rushed through to completion for the government's account. The work will be paid for at a later date, the compensation to include ships, materials and contracts, is to be paid by the government, so a fair determination of the obligations of the fleet emergency corporation can be determined.

OWNERS HARD HIT THROUGH U. S. ACTION

Norwegian and British owners are the hardest hit by the federal order, principally the former. The larger portion of the Norwegian commercial fleet is being constructed in this country and the commandeering of these craft, some of them the biggest freight carriers in the world, will materially cripple the plans of the Norwegians for a significant increase in an "outgrowth" of the war.

The commandeering order affects vessels of more than 2500 tons under construction for foreign and American accounts. Of the larger type of vessels, which come within the operation of the order, twenty-four are being built at the Union Iron Works, eight of the number being for the Cunard line. At the Moore & Scott yards, with a complement of approximately 70,000 tons, are being rushed to completion, three of these being Cunarders. At the Hanlon yards there are two which will be taken over. Among the vessels of the freighter Portland, on Puget Sound.

The federal order will necessitate faster work at the different yards, increased shifts of men, overtime, and a general speeding up of construction operations to meet federal demands. It is estimated that more than 25,000 men will be added to the present shipyard payrolls if the government doubles the regular shifts at the various coast shipyards and insists on quicker output.

TEXT OF ORDER PROVES EXPLICIT

"You are hereby required to complete the construction of said requisitioned ships under construction and will prosecute such work with all practical dispatch."

The compensation to be paid will be determined hereafter and will include ships, material and contracts requisitioned.

You will furnish immediately general and detailed specifications of the ships requisitioned and copies of contracts and all supplemental agreements in relation thereto and full particulars as to owner, date of completion, payments made to date, and all other information necessary to a fair and just determination of the obligations of the emergency fleet corporation in taking over these ships and contracts.

Whether any additional contracts are under consideration and their character and extent and will not enter into any additional contracts or commitments with respect to merchant tonnage without express authority from the corporation."

About 675 ships are affected by the government's order. Their aggregate tonnage is more than 1,500,000. Included are many English, Norwegian and other vessels on foreign account.

The shipyards and owners of the vessels will receive compensation for the construction work on them so far. The government will take over the contracts and expedite completion of the ships in order to make room for more emergency vessels to overcome submarine losses.

Speed will be accomplished by addition of overtime labor, additional shifts and elimination of unnecessary luxuries of construction and equipment. The government's ready access to steel and other shipping materials makes the problem simple as compared with the drawbacks the private builders faced, it is said.

MADSEN WEDDED

SACRAMENTO, Aug. 4.—Martin C. Madsen, private secretary to Governor W. D. Stephens, and Mrs. Nita Campbell of Riverside were married at noon today at the home of H. L. Carnahan, state corporation commissioner, in this city. Mrs. Campbell is a niece of Mrs. Carnahan. Madsen's marriage, which was the result of a long courtship, was celebrated at a wedding of 200 guests. Madsen is from Fresno and was executive secretary to United States Senator Hiram W. Johnson when he was governor.

BABY SEES FATHER SHOT BY MOTHER

Four-Year-Old Son of Jack De Saullès Witness of Tragedy; Famous Beauty Is in Prison

"Glad I Did It," Says Woman Behind Bars; Quarrel Over Child Prelude to the Slaying

NEW YORK'S FAMOUS SUMMER MURDER. June 25, 1906—Harry K. Thaw murdered Stanford White. June 18, 1906—Elsie Sigel murdered by Leon Ling, in a Chinese restaurant. June 30, 1911—Mrs. Louise Baffey murdered while she was in the office of Dr. Edwin Carman, Freeport, L. I. Mrs. Carman subsequently acquitted of murder charges. May to July, 1915—A dozen different murders charged by police to a Jack the Ripper. August 5, 1917—John Lonser de Saullès murdered by his divorced wife, Mrs. Bianca Errazuriz de Saullès, at Hempstead, L. I.

BY UNITED PRESS LEASED WIRE TO TRIBUNE

NEW YORK, Aug. 4.—Holding his baby hands to his ears, to shut out the sound of shots, little John de Saullès, 4, the innocent cause of the tragic end of an almost fiction-like romance, saw his mother kill his father "Jack" de Saullès. Clutched in the arms of his aunt, Mrs. Carolina Degener, the child watched his father, a former Yale football captain, reel as a bullet entered his back and then pitch headlong through an open front window as four more shots were fired.

With Mrs. de Saullès, a beautiful Chilean heiress, in jail, charged with murder and declaring she is glad she killed the father of little Jack, corrected details of the tragedy were furnished by the city today.

CHILD PLAYS ABOUT HOUSE OF MOURNING

Little Jack was about the house and playing with his toys in the yard today, ignorant of the tragedy that lay behind him.

Charles Pettinella, a friend of de Saullès, told the district attorney the story of the killing, after having talked with all witnesses.

Little Jack was playing on the floor of the living room when his mother suddenly appeared, a revolver concealed in the folds of her gown. As told by Pettinella, the story of the murder materially differs from the first police version.

Residing at 100 East 86th street, the boy home in his automobile. De Saullès wanted to have the child, as his father, Major Arthur de Saullès, and his sister, Mrs. Degener, were visiting him.

About 8:30 last night, while the family was in the reception room, the mother burst in unannounced and stood in the midst of them. Her hands were hidden in the folds of her dress. Major de Saullès was on the lounge.

De Saullès smiled at the woman entered. He put out his hand and stepped close, saying: "Why, hello, Bianca."

A brief conversation ensued, the man standing smiling, the woman, her eyes fixed hungrily on her child, not glancing at her former husband.

"It is no use," she said, "you cannot have the boy. I have come to see about taking him away."

"I'm sorry," replied de Saullès, "but I cannot discuss that. I don't want to argue with you."

He gestured to end the talk and stepped to an open French window where he stood with his back to his former wife. Suddenly Mrs. de Saullès flashed the gun from her dress and began shooting. She hesitated after the first shot, fired four more, and then she was standing and seized the child, but he witnessed it all.

Then according to Pettinella, Mrs. de Saullès remarked: "Well, it is too bad, but it had to be done. I suppose it's time to send for the police."

Mrs. Degener told a similar story. "The boy was sitting at the foot of the stairs and Major de Saullès was on the couch when she entered. For a long time after the shooting she sat on the couch in the living room, her head in her hands, gazing straight ahead. I asked her why she had done this thing."

"It had to be done," she replied. "I'm glad. Where are the police?"

Members of Root mission to Russia: ELIHU ROOT (left), MAJOR GENERAL SCOTT (top right) and CHARLES R. CRANE. Crane remained in Russia.

MISSION TO RUSSIA IS BACK IN U. S.

All members of the mission were sent back first day out on both trips. Their hotel in Petrograd was the former Czar's palace. No guards were on hand.

Full dress suits are out of style in Russia. The mission "dressed up" only once.

Members of the mission are: Elihu Root, who reached here last night en route to Washington, was entertained at a civic luncheon today. The Governor of the State and the Mayor of the city were among those receiving the mission.

Headed by Root, the members of the mission are: Charles Edward Russell, writer and publicist; Cyrus H. McCormick, president of the National Harvester Company; Samuel R. Barton, New York banker; James Duncanson, vice-president of the American Federation of Labor; Charles E. Crane, one of America's leading manufacturers; John R. Mott, one of the nation's most active supporters of the Young Men's Christian Association; Major General Hugh S. Gurnea, chief of staff of the United States Army, and Rear Admiral James H. Glennon. The mission left the United States May 19.

An official statement on the work of the mission in Russia or on the report that the mission will make on its return to Washington could be obtained. Root, acting as spokesman, declared that he had nothing to say beyond the fact that the party had been hospitably received in every Russian city that they visited.

From the Russian revolution will be evolved a stable government, according to Russell. The success of the revolution Duncan attributed to the workmen of Russia, by whom the propaganda of freedom was first carried to the peasant class at the time of the original Duma, in 1905.

GERMANS BUSY AMONG SOCIALISTS

"Most of the trouble, however, has been caused by Russians naturalized as Americans, who have returned to Russia since the outbreak of the revolution," he said, and added that Russians from the United States spread the report throughout the country that America had entered the war for selfish reasons.

"These propagandists," he continued, "who pretend to have an intimate knowledge of American conditions and American motives, inform their native countrymen that the government of the United States is more oppressive than the old regime at Petrograd."

He declared that the extremists of the Socialist party were demanding the immediate institution of a Socialist commonwealth, regardless of the menace of German militarism, but that most of the Socialists were coming to understand that the world must be made safe for democracy before there can be any sound progress toward social betterment.

SCORES PARTY AS ACTING UNFAIRLY

Declaring that the Socialist party in America is in the hands of German propagandists, Russell made his first answer to his expulsion from that party. "The constitution of the Socialist party in the United States provided that no one could be expelled without a hearing," he asserted, "so I consider that I have never been expelled, but I have no interest in an organization that is disloyal."

Rear Admiral Glennon learned for the first time of the death of his son, which occurred three weeks ago. Wireless messages carrying the news were directed to him but failed to reach him.

U. S. TO SEND TROOPS TO PUT DOWN REBELLION

Two More Railroad Bridges in Oklahoma Burned; Phone Connections to Towns Cut

DRASTIC MEASURES TO PUT DOWN REBELLION

1000 Citizens Hunting Army Service Resisters; Disorder Spreads into Four Counties

WASHINGTON, Aug. 4.—Federal troops will be dispatched to Oklahoma and North Carolina to quell anti-draft riots.

Provost Marshal General Crowder and Assistant Attorney General Fitts, after a conference today, decided to call upon the War Department for troops to use where the situation is "overriding the civil authorities."

Immediate action will be taken to put down all opposition to the draft. A posse of citizens are now being organized in North Carolina and Oklahoma alone warrants the dispatching of troops.

Anti-draft rioters may meet death if they are subject to the military action. The situation in North Carolina is so serious that the federal government is prepared to take drastic measures to put down the rioters.

DRAFT RIOTERS AND MOB IN BATTLE

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

ADA, Okla., Aug. 4.—The first battle between county officials, federal soldiers and anti-draft rioters in this other took place near Stilwell today.

The draft rioters dispersed, and, as far as known, no one was injured, although a number of shots were fired on both sides.

The posse included eighty citizens and officers. The rioters made no organized opposition to the posse forces, merely firing and fleeing. They are being ordered to leave the county for the bridge and if the rioters resist a battle is certain. All indications today are that the anti-draft revolt is spreading through the whole of southeastern Oklahoma, so far down as the Arkansas line.

Scattered parties are roving through the country, impressing recruits and seizing arms and ammunition. The mob leaders announced that all troops would be seized and possession taken of the railroads.

National Guard cavalrymen from Okemah are now in Muskogee, where Sheriff Robert Duncan, with the aid of twenty-five citizens, arrested the rioters late yesterday.

Citizens' posess from Seminole, Pontotoc, Hughes, Okmulgee, Cherokee, Okfuskee and Pittsburg counties were still scouring the county today in an effort to round up the rioters. The mob leaders are using the Russian revolution as a slogan to inspire recruiting of their ranks.

The Russians revolted; let us, too, seize the government," they declare.

RAILROAD BRIDGE IS DESTROYED

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

MUSKOGEE, Okla., Aug. 4.—W. G. Humphrey, general superintendent of the Missouri, Oklahoma and Gulf Railroad, received word this morning that a M. O. & G. bridge near Calvin, eight miles south of Muskogee, in Humphreys county, was burned last night. All wires have been cut and details were not obtained.

OKLAHOMA CITY, Okla., Aug. 4.—More than 1000 posemen with orders to "shoot to kill" at dawn today began the search for armed bands of draft objectors who for the past few days have terrorized Central Oklahoma.

The objectors made their first appearance in Seminole county, from which the disorder spread to Pontotoc, Hughes and Pontotoc counties. The posse included eighty citizens and officers. The rioters made no organized opposition to the posse forces, merely firing and fleeing. They are being ordered to leave the county for the bridge and if the rioters resist a battle is certain. All indications today are that the anti-draft revolt is spreading through the whole of southeastern Oklahoma, so far down as the Arkansas line.

MINISTERS IN CENTER OF NEW FIGHT

BY UNITED PRESS
LEASD WIRE TO TRIBUNE

LONDON, Aug. 4.—Russia was once again reforming her cabinet today, for the fourth time since democracy overthrew absolutism.

Petrograd dispatches today emphasized that the resignations of all the ministers and the later withdrawal of those resignations of all but two of the Kerensky cabinet members, was not due to lack of support from the populace. They were impelled first by charges approaching treason leveled against M. Tchernoff, Socialist minister of agriculture, forcing that member's retirement. Tchernoff did not withdraw his resignation and he and Foreign Minister Tereshchenko were the only two ministers who were out today. Tereshchenko is not a Socialist and has occasionally exhibited lack of sympathy for the radical policies of his fellow cabinet members.

Apparently the charges against Tchernoff were inspired by the Constitutional Democrats, on whom Kerensky had been working in an effort to have them designate a party leader for the cabinet.

One report received today was that an adjustment of the whole ministry would be arranged tomorrow at a conference which, it was understood, Premier Kerensky had called between all parties and representatives of the workmen, soldiers and peasants congress at Moscow. That the upheaval has not stopped Premier Kerensky's course in repressing malcontents was proved in Petrograd dispatches detailing the arrest of General Gurko, formerly commander on the southern front, and other officers charged with fostering the recent army mutiny. A rigorous hunt was on for the assassin of General Erdelli, military governor of Petrograd.

HISTORIC STATUE BOOTY OF THIEVES.

PETROGRAD, Aug. 4.—Six armed men, three of whom were disguised as soldiers, motored to the senate building today, garrotted the guards and stole a silver statue of Catherine II and other antiques valued at 1,500,000 roubles.

General Erdelli, military governor of Petrograd, says the Bourgeois Gazette, has been killed. He was treacherously shot in the back.

General Erdelli, a despatch from Petrograd July 25 announced, had been appointed military governor of Petrograd in succession to General Potemkin, who had resigned after failing to put down rioting in the Russian capital. General Erdelli had been commander of the eleventh army.

Filmed Version of Joan of Arc Is to Be at Kinema

Miss Geraldine Farrar, who has just completed under the direction of Cecil B. DeMille a filmed version of the life story of Joan of Arc, entitled "Joan the Woman," recently discussed the difference between the art of motion picture and grand opera acting. The picture will be shown at the Kinema Theater on Sunday.

"There is something so different about creating a role for the camera and creating a part for the opera," said Miss Farrar. "The two arts are not so closely allied as one would think. With the opera there are weeks of preparation, to be sure, and then comes the premier. It is true that great latitude is allowed on the operatic stage for the development of character and to the broadening of effects. But after all the fundamentals of the performance continue the same in its various repetitions."

"The past summer has been a revelation to me. For nearly three months many hours every day and sometimes far into the night I have watched the story develop from an idea into a massive production. I think Mr. DeMille has done wonderful things, and I believe the scenario by Miss Jennie MacPherson to be a revelation to those who doubt that a long picture must rely on its spectacular features to the exclusion of its heart interest. It is true that throughout this picture there are various extraordinary spectacles, such as the battle scenes in the siege of Orleans, but one never loses sight of the central figures, her hopes, her ambitions, her disappointments and her failures."

While Miss Farrar was in California during the past summer she started her friends by appearing at the studio one morning with her hair clipped to a length just above her shoulders. Her beautiful black locks had been sacrificed to the cause of art.

MISS GERALDINE FARRAR

COLLEGE BOY TELLS OF THE WAR WRITES A STORY OF FIGHTING

American college boys, thousands strong, have responded to the call of the colors. "The College Boy's Answer," a full page story in The TRIBUNE Sunday tells of this splendid response.

A Stanford student, one of those college boys who are doing a part in the war work, has written to The TRIBUNE of his impressions in Paris. He has had some wonderful adventures, has helped great Pershing's men, and he has an interesting way of describing what he has seen. Read Jack Nichols' letters from France in tomorrow's TRIBUNE.

"The war reviewed." With the dawn of the fourth year of the conflict now starting military experts have summed up the balance sheets for the Tribune Magazine, the outstanding events are tabulated and the import of the entrance of the United States is emphasized.

The garden editor of the Tribune Magazine is publishing a list of flowers for this region. It tells when to plant, what to expect and bears information regarding the flowering times not to be found in the ordinary list. It is something for the gardener to cut out and save.

The TRIBUNE tomorrow will have a page of new and interesting facts in science, book reviews, some war literature from the front, special feature articles by celebrities, music and art criticism, etc., etc., etc.

Positions on West Front Recaptured

While there has been no renewal of the smashing offensive on a large scale inaugurated by the Anglo-French forces in Flanders on Tuesday, the incessant pressure on the German lines is beginning to tell in the further yielding of ground.

The British yesterday again pushed themselves in the village of St. Julien which they lost during a German counter-attack closely following the initial dash. Last night the French in turn moved ahead in their sector, making further progress west of the Cabaret of Kortekker.

To the south, on the Arras battlefield, the British have renewed their grip on the old line, completing last night the recapture of the positions the Germans took from them Thursday night at Infantry Hill, east of Monchy le Pzeux.

LONDON, Aug. 4.—All the positions east of Monchy le Pzeux on the Arras battle front in France which were captured by the Germans Thursday night have been retaken by the British, according to an official statement issued today by the British war office.

On the Belgian front, where the French and British, launched an offensive Tuesday morning, the extensive allied troops made further progress east of Kortekker Cabaret.

"East of the Kortekker and Cabaret we made further progress in heavy rains during the night," Haig's statement asserted.

"At Monchy le Pzeux our positions were completely re-established. East of Monchy we recaptured the remainder of the trench into which the enemy forced entrance Thursday night."

The Kortekker river runs north-westerly from around Comines through voerde. Cabaret is on its banks.

PARIS REPORTS STEADY ADVANCE

PARIS, Aug. 4.—Despite the continued bad weather along the battle front in Belgium, says an official statement issued this afternoon by the

Pope Losing Forbearance For Germany

ROME, Aug. 4.—It is stated in Vatican circles that the Pope's impartial attitude toward official Germany is undergoing a change. The Pope is reported to regret greatly the action of Germany in connection with the deportations.

The new attitude appears to have been adopted after the fall of Dr. Von Bethmann-Hollweg, the imperial chancellor, who, just before his resignation, wrote that now is apparent was a farewell letter to the holy father, thanking him for his forbearance and also calling attention to the fact that he had always tried his best to grant the Pope's demands regarding prisoners.

Although an absolute break with Germany is not expected at this time, it is certain that the Belgian deportations are daily making more difficult the maintenance of relations. The Pope's personal position is also uncomfortable, as the result of the fight made by Anglo-French and Belgian Catholics who long have claimed that the Pope was surrounded by central empire influences.

French war office, French troops pushed forward last night, advancing beyond the Cabaret and Kortekker.

Despite the boggy condition of the ground in west Flanders from the continuous rains, heavy guns are being moved forward to the allies' new positions to prepare for further infantry operations. Despatches received today from French correspondents on the Belgian front tell of the terrifying spectacle that the fighting has afforded. Tribute is paid to the bravery of the Prussian Guard, the men dying where they stood rather than fall back.

PETROGRAD, Aug. 4.—North of Hruslavan, on the Russo-Ukrainian frontier, the Austro-German rearwards yesterday were driven from their positions on the eastern bank of the River Zbrocz, says the official statement issued today by the Russian war department. Forty-three prisoners were taken and seven machine guns were captured.

NEW TAX LAWS UNDER ATTACK

WASHINGTON, Aug. 4.—Chairman Kitchin of the House ways and means committee declared in a statement that "intolerable inequalities" in favor of the more prosperous have been written into the war tax bill, which was put into final form by the Senate finance committee.

In rewriting the ways and means committee's measure, said Kitchin, the Senators have taken an enormous load of taxation from the big business concerns, and placed it, upon the shoulders of the farmer, the small business man and others having modest incomes, have stricken out, by wholesale, the House proposals for taxes on luxuries, substituting levies on necessities, have eliminated income tax schedules that would have taken several millions from the incomes of the rich and have added a grossly inequitable excess profits section, which is impossible of administration.

POINTS OUT INEQUALITIES.

Among Kitchin's criticisms are that the finance committee struck out the Leavitt amendment, increasing surtaxes on incomes of \$40,000 to \$1,000,000, thus relieving large incomes of taxation totaling \$66,000,000 annually; repealed the munition manufacturers' tax, saving munition makers of more than \$25,000,000 a year; exempted all corporations from taxation for dividends received from other corporations, relieving the big corporations of more than \$50,000,000 a year; and eliminated the additional House tax on the transfer of estates, relieving big estates and inheritances of \$5,000,000 the first year and \$38,000,000 or more yearly thereafter.

Kitchin cited Senate committee amendments which he said would impose excess profits taxes on farmers, merchants, butchers and blacksmiths, but would exempt lawyers, doctors and agents, including employees and others, receiving fixed amounts for their services.

HEAVY INCREASE IS PUT ON WINES BY WAR TAXES

WASHINGTON, Aug. 4.—The war tax bill, as agreed upon today by the Senate finance committee, increases the taxes upon wines virtually to triple the present tax and puts upon beers a tax of \$3 a barrel, two times the present rate. The House levy on wines was only \$6,000,000. The Senate rate is calculated to bring \$17,000,000.

In greatly increasing wine taxes the committee decided on the following levy:

Four cents per gallon additional, doubling the present tax of four cents on dry and still wines containing less than 14 per cent of alcohol.

On sweet wines, liquors, cordials and other compounds the new rate was fixed at \$1.10 per proof gallon, double the present law.

Alcohol for fortifying wines, \$1 per proof gallon in addition to the present tax of 10 cents per gallon. Present taxes on champagne, sparkling and artificial wines, tripled.

FILM COMPANY STARTS AT BEACH

Right in the trend of the times is the organization of a new motion picture company which will have its studio at Neptune Beach, Alameda. The local motion picture situation has been looking up from a producing standpoint of late and this addition to the number of organizations already busy grinding the celluloid may be the break which will swing to pendulum of the industry to Alameda county.

The new company is known as the Romance Film Company, with an experienced producer and director in D. L. Byers, who for years has done reputation service for the DuPont Company of San Francisco.

A complete studio for interior work, for developing and printing, for "casting" and finishing is being built at the beach.

The first work of the new company will be a series of original beach comedies, a theme which has been touched by the Keystone company in the south but never developed into its fullest possibilities. Character possibilities are wanted for the filming.

Mr. Zimmerman, the situation manager for the Laasy studios, visited the new plant last week and commended Byers on his arrangement. One thing that impressed Zimmerman was the fact that the weather "is not a bit overcast in Alameda county."

For the comedy work Charlie Small, the great aquatic clown, and the Olympic Club of San Francisco, has been retained for preliminary character work. Small is famous for his comedy impersonations and pantomime.

Miss Helen M. Bascom is in charge of the selecting of feminine beach talent for Byers. She says that she always thought that the southern Keystone girls were the most beautiful in the world as a group until she had the task of choosing from the applicants for the work at Neptune. An array of beach beauty unrivaled in the whole screen will be unveiled in the production of the first picture, predicts Miss Bascom.

Backed, as the venture is by the management of Neptune Beach, it is safe to say that the picture stages of cinematography will be passed. Then the merits of the production will tell the success of the trial. At least it is an encouraging thing for the trade here that the productive end have this addition.

VOTE FOR DRAFT

OTTAWA, Ont., Aug. 4.—The Canadian Senate late last night advanced to second reading the draft act, thereby insuring its passage through Parliament and making certain that it will become law.

A motion by the opposition that the act should not take effect until after a general election was defeated, 44 to 34. Three senators who are classed as government followers voted for the motion.

Nine Liberals, including the leaders in the Senate, voted for the second reading of the bill. The measure will become a law next week.

SLAYS WIFE, SELF

BOSTON, Mass., Aug. 4.—Major William Hoffman, U. S. A., retired, early today shot and killed his wife, Ora, and then committed suicide in his apartment in Dorchester. The reason for the act is unknown.

A physician in the building heard the shots and a new physician later broke into the apartment to find the couple lying side by side on a bed.

ling and artificial wines, tripled. Total taxes on champagne and sparkling wines under the revised bill: 9 cents a half pint, 45 cents a pint on artificial wines.

NEW PEACE TALK

WASHINGTON, Aug. 4.—Two members of the House think peace negotiations should be started now. Each offered a resolution this afternoon looking to cessation of hostilities.

Representative Stearns of Mississippi, Democrat, wants the President authorized to call a world congress in some neutral capital to consider peace terms. Meyer London of New York,

Socialist, presented a resolution providing for the immediate cessation of hostilities on invitation of President Wilson. Within a peace delegation to be chosen from the legislative bodies of countries now at war with Germany.

Reo Quality is Uniform in all Reo Models

AND REO QUALITY at Reo Prices and backed by the Reo guarantee, constitutes "The Gold Standard of Values"—each model in its class.

THERE ARE NOW SEVEN Reo Models, comprising Four in Touring and Roadster types; three in Touring, Roadster and Sedan; and the two Reo Commercial Vehicles—the 1/2-Ton "Speed Wagon" and 2-Ton "Heavy Duty" Truck.

IN THIS ADVERTISEMENT we have space only for a brief paragraph pertaining to each Reo Model—lest you forget the line is so complete that you can find the car you desire, in the type you prefer, and in a Reo.

REO THE FIFTH "The Incomparable Four" is America's most famous automobile. Standard in practically its present form for now eight seasons—"going on nine". At its present price, \$985, this car is verily "A gold dollar for ninety cents".

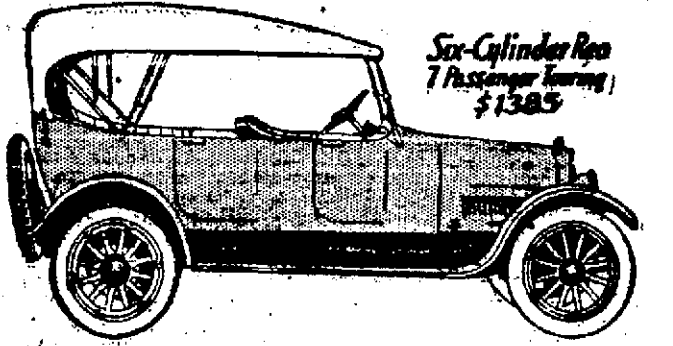

TO REO THE FIFTH more than to any other, is due the movement that is now so apparent—the return to the Four-cylinder type in all cars listing at less than \$1,000.

THE FOUR ROADSTER is the handsomest model of its type you'll see on the road—at any price. And, for the present, you can get it for \$985 and freight from the factory.

OF THE SIX ROADSTER the same is true, plus the extra luxury it affords the owner at the extra cost—\$1385 f. o. b. Lansing.

THESE TWO ROADSTERS are of similar design and identical construction and are conceded to be the handsomest cars of the time—price aside.

FOR THE FAMILY that needs a car of greater capacity than five and yet of moderate upkeep, the Reo Six Touring Car—also \$1385 for the present—knows no equal.

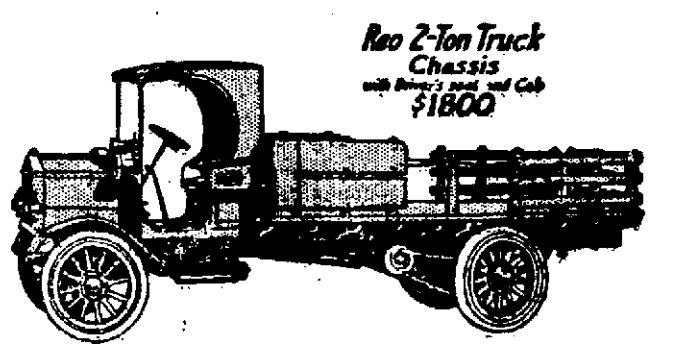

NO MATTER WHAT YOU PAY you cannot obtain a 7-passenger car of better design; one that represents sounder engineering; more experience; better materials and workmanship than enter into the making of this Reo Six.

THAT'S A BROAD CLAIM but we make it unhesitatingly—and you know that the word of Reo passes at par everywhere.

THE REO SIX SEDAN is the newest of all the Reo models—and therefore represents the best of Reo experience and taste.

REFINED AND IMPROVED at every point where last season's experience showed the need or the opportunity. This body is staunch in construction as well as graceful in curve and line.

AT ITS PRICE, \$1,950, you will not find its equal—nor at a thousand dollars more, its superior. We state that in all confidence too.

OF THE REO TRUCKS what need we say here? The 1/2-Ton "Hurry Up" Wagon at \$1,125 (chassis \$1050); and the famous 2-Ton Reo "Heavy Duty" Truck at \$1800—each is the leader in its own class—demand greatly in excess of factory capacity.

BUT THAT IS TRUE of all Reo models, without exception.

THAT'S WHY WE SAY "Reo Quality is Uniform in all Reo Models," the uniform over-demand for all Reo models justifies the statement.

ORDER NOW if you'd have your Reo soon. Present prices are guaranteed only till December 1st. If you order now and specify delivery before that time, you'll get your Reo at the present price.

BACCUS SAYS DAVIE BROKE HIS PROMISE

Inside light on the awarding by the City Council of the new garbage contract the last week in June has been shed on the subject by former Commissioner William J. Baccus, who declared that Mayor Davie has not kept faith with him in promises made in return for his vote to award the contract. The former commissioner said that the mayor agreed to use his influence to save the positions of men in the head office of the street department, who are close friends of Baccus and whose jobs were threatened with the inauguration of the new city administration. Baccus also said that he had given his vote to approve the mayor's appointment of George C. Kaufman to a seat on the civil service board with the same friendly feelings toward the chief executive.

The mayor's reiterated statement in council that he "had nothing to do with the awarding of the garbage contract" as he "was not present in council when it was voted upon," is contradicted by former Commissioner Baccus, who declares that it was his intention to reject the bid of the company on the grounds that he felt it would not be competent to fulfill the contract, and to call for new bids. Baccus said:

FAVOR TO MAYOR.
"I told a former city official who was interested in the matter, that I did not believe that the new company could carry on the contract and that I believed that the garbage should be handled by the city. He said that if I would not vote for it, he would go to the mayor. I told him to go ahead."

Two days before the contract came up for awarding, Mayor Davie came to me and asked me to vote to award it to R. F. LaVoi, the highest bidder. He said that the former official had talked to him about it and that he wanted to do him this favor. I explained my reasons against the proposition, but he pleaded and asked me to request Commissioner Anderson to vote for it also. It was not my intention at that time to award that contract.

PROMISE BROKEN?
"He said that the mayor wanted to know, however, if the garbage contract would be awarded; that if so he would stay away, but that if it was not to be awarded he would come into the council. I said that he intended to try and force the issue anyway, so I called City Engineer Brown over and asked him if he would prepare a resolution and put it in. The resolution went in and the contract was awarded by three votes, Anderson, Baccus and Jackson."

"Before that was done it is a matter of record that I demanded of the mayor that he retain the contract himself or

New Theater
Is to Open Its
Doors Tonight

HAROLD LOCKWOOD.

Harold Lockwood to Appear in
First Film at the
American

When the doors of the new American theater, at Seventeenth street and San Pablo avenue, are thrown open tonight for the first performance, at 7 o'clock, the public will be treated to a pleasant surprise in the latest addition to Oakland theatres.

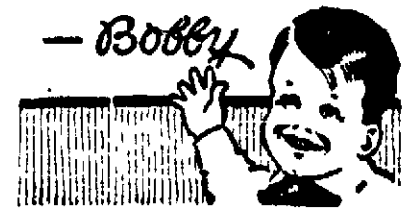

Harold Lockwood will appear in the delightful comedy-drama, "The Haunted Pajamas," a motion picture film that has been specially selected by the management for the opening occasion.

Besides the feature film other pictures will be shown and a musical program of exceptional merit will be introduced to the audience to augment the evening's entertainment.

The twelve-piece orchestra will be under the direction of John Wharry Lewis. During the last six weeks the American theater has been in course of remodeling and preparation for tonight's event. The interior, fresh from the hands of the decorators and electricians, is of exceedingly attractive one and no expense has been spared in making the American all that the name implies, comfortable and convenient for the service of the theater-going people of Oakland and nearby cities.

Popular prices have been fixed and a well-tried and handy system of pay-as-you-enter has been installed to better contribute to the demands of the public.

MARRIED LIFE

Morse to Go Slow on Plan to Lease Western Water Front

Any effort on the part of Mayor Davie to rush through a lease to the Union Construction Company of San Francisco for extensive holdings on the western waterfront will be opposed by Commissioner of Public Works Fred R. Morse until he is satisfied that any definite locating of the proposed plant will not jeopardize future development to the detriment of the city's best interests.

He is in favor of prompt action being taken in granting the lease and proposes to locate the plant practically in the center of the city's frontage. He says that he has several other propositions for leases in the vicinity.

Commissioner Morse said that he is not opposed to the lease, but that it is a question with him as to the advisability of going blindly into the matter without having competent engineering advice as to what the consequences would be.

SETTLES QUARREL
Differences in the family of Mrs. Albert Ward, who was killed recently when her automobile backed into the bay at Richmond, were temporarily settled by Superior Judge W. S. Wells yesterday when he appointed the public administrator to take charge of the estate of Mrs. Ward and appointed Mrs. Rosalia Ward guardian of Mrs. Ward's two minor children.

KAYSER IS HEARD
Official endorsement of the county hospital project was given last night by members of the Santa Fe Improvement Club. The endorsement followed an address by E. C. Kayser of the Alameda County Civic Association, who addressed the members on the scope of the three bond issues of the bridge, the infirmary and the hospital. Kayser in his talk urged complete endorsement of the bridge matter on the ground that the present bridges had been ordered out by the government and unless substitute bridges were authorized by bond, the traffic between Oakland and Alameda will be paralyzed. Following a general discussion, the hospital project was endorsed.

FEELEY TO SPEAK
Thomas Feeley of San Francisco will speak on "True and False Friends of Labor" at one of a series of Sunday evening lectures under the auspices of the Socialist party. Deba Hall, 1020 Broadway, at 3 o'clock tomorrow evening. Other lectures in the series to be given this month are: "Rights of the Conscientious Objector," by Herman Smith, secretary of the Jack London Memorial Library, San Francisco, on August 12, and "The Socialist Party and the Present World War," on August 26. There will be a social and supper with speakers and round table talks on August 15.

MAYOR ANSWERS RECALL CHARGE

Without mentioning the circumstance of his appointment of George C. Kaufman to the civil service board, charged in an affidavit for his recall as an attempt to build up a political machine, nor the acquisition of an \$85 office chair for his official comfort, Mayor Davie today filed formal answer to the recall proceedings, sending a copy to R. D. Van Nest, 1840 First avenue, who initiated the recall.

The mayor replies to the charge that "his control for two years more is too grave a menace to tolerate," that he is "incompetent" and "insults citizens who appear before the council," by attacking the record of Van Nest and setting forth that during the week he voted "for a \$44,000 saving in salaries" when more than a score of civil service employees were ousted.

The mayor's answer to the affidavit for his recall follows:

MAYOR'S ANSWER.
"Van Nest, who has been a qualified elector in Oakland for less than two months and who was forced to resign as a \$40 assistant attendant at the Stockton Insane Asylum for dereliction of duty, proposes a taxation burden of two special elections upon unsubstantiated recall proceedings."

"During my two years as chief executive, over 150 manufacturers and factories, employing over 15,000 men, have located here, as proved by over-crowded schools recently erected."

"Our bank clearings, an accepted prosperity gauge, were never so high. "Building permits were never so numerous."

"Five more manufacturers are negotiating with me for western harbor front sites, completing a manufacturing center begun by Alameda County."

"The West Oakland marsh, for twenty years a menace, is practically filled, ready for manufacture."

"Do these facts prove that I am driving industries away or do they prove conclusively that my administration is attracting manufacture?"

"The 1915 tax rate under my direction greatly reduced taxes. Last year's tax rate was passed by Councilman Jackson with former councilman."

"I have consistently upheld civil service recommendations for reducing expenses."

"This week alone I voted for a \$44,000 saving in salaries."

"Consult my recorded vote in the city clerk's office."

**WANTED TO SAVE
CITY'S COIN, BUT
'T WAS NO USE!**

SAN FRANCISCO, Aug. 4.—Patrolman Jack Cole of the Bush street station is an economist. He believes in saving not only his own coin but that of the city whenever possible. Somewhere he had read that it cost San Francisco \$100 every time a fire alarm was turned in. Therefore when he saw a chimney afire at the Hotel Rocklin, 115 Leavenworth street, he figured with the eye of an efficiency expert how he might prevent useless waste. Accordingly he telephoned for a chemical and stood guard over the fire.

Worth and Eddy streets, a few feet distant. His aim was to prevent some passing citizen from turning in an alarm which would summon fire engines, trucks and other apparatus. Two excited persons attempted in vain to pull the box as Cole watched, and he was resting with a feeling of satisfaction when suddenly the air was filled with jangling bells and the running sound of approaching automobile apparatus.

MRS. DOBLE SUES
SAN FRANCISCO, Aug. 4.—Charging that she had been humiliated many times since her marriage by her husband's attentions to other women and that he said he did not want her or her children in the house, Mrs. Helen Augusta Doble, wife of Abner Doble, youthful inventor of the steam car, has filed suit for divorce on the ground of cruelty. Mrs. Doble, in her suit filed yesterday, asks for \$100 a week alimony and the custody of the two children, Dorothy, 2, and Lee, 5. The Dobles separated a year ago in Detroit and Mrs. Doble came to the home of her parents in this city. Doble, who came here a week ago on business, is living with his father, W. R. Doble, at 130 Sea Cliff avenue. Young Doble is vice-president of the Doble-Detroit automobile factory, a \$10,000,000 corporation, and holds important offices in other large automobile concerns.

TO GIVE LECTURE
The perils which beset the traveler on the road to Hades, the various demons and gods who inhabit the infernal regions, the costed and happy conditions of the Elysian Fields and the Isles of the Blessed will all be portrayed by stereopticon upon the screen at the Museum of Anthropology at the Alameda College, San Francisco, tomorrow afternoon, 2 o'clock. Associate Curator Gifford will lecture upon "The Book of the Dead," one of the two great Egyptian guide books to the Underworld.

CAPTURE SUSPECT
BERKELEY, Aug. 4.—Taken from an Alcatraz avenue car by Inspector Clarence Morrill within half an hour after the murder yesterday of Ge Chung at 2150 Dwight way, Lem Bock Day was this morning formally charged with that crime, arraigned before Judge Robert Edgar and his case continued to Monday afternoon for setting the time of his preliminary hearing. Lem Bock Day, denying participation in the murder, has retained Snook & Church as counsel.

Inspector Morrill made the arrest on the basis of a description of two men seen running from Gee Chung's doorway by Ruth Hawkins of 2138 Dwight way. She described the clothing of one of the men as including a gray cap, dark coat and corduroy trousers, which corresponded to Lem Bock Day's garb at the moment of his apprehension. She has not yet identified the prisoner.

FOR ANNIVERSARY
The twentieth anniversary of the organization of the King's Daughters of California Home for incurables will occur on Tuesday. An informal reception will be held between the hours of 3 and 5 p. m. at 840 Broadway. All friends are cordially invited to be present.

**WHERE DO YOU
PLAN TO GO
TOMORROW?**

You'll find half a page of morning and evening Sunday service notices in today's TRIBUNE.

The hours of Sunday School Classes of all denominations are also given. You and your family are earnestly invited to attend some service somewhere in Oakland TOMORROW.

GROCERY STORES NEED WOMEN

Women will soon be called upon to serve behind the counters in grocery stores in Oakland and elsewhere in Alameda county, to take the place of men who will be called by the draft, according to T. J. Croie, secretary of the Retail Grocers' and Merchants' Association of Alameda county. Even with the serving of male help by curtailing soliciting and deliveries, the grocery stores will be short-handed and women will have to fill the breach, Croie says. How to supply substitutes for men called out by the draft and other problems caused by the war will be discussed at a meeting of the Association on Wednesday evening, August 11.

Similar steps are being taken across the bay and the San Francisco Retail Grocers' Association has asked all grocers there to attend a meeting next Tuesday night to discuss a proposal to adopt a one-day delivery-day plan.

**Chicago Hushed
as Drafted Men
March in Review**

CHICAGO, Aug. 4.—The great business of Chicago was hushed today while on the third anniversary of actual outbreak of the great war, Chicago's drafted men marched in review through the principal streets of the home city they soon will be leaving for "some where in France."

Major-General Thos. Barry, commander of the central department of the United States army, and the commission from the new Russian democracy occupied the position of honor in the reviewing stands. The Chicago Board of Trade and the big business houses were closed in honor of the occasion.

MEDIATORS TO ACT ON S. P. TROUBLES

There will be no strike on the Southern Pacific lines in California until after every resource of mediators has been found unavailing. This decision has been reached by the representatives of the Brotherhoods, as the result of a series of conferences with the railroad officials, it finally being agreed that both sides would accept the office of the Federal Mediation and Conciliation Board in an endeavor to settle finally the differences that exist.

It was announced several days ago that the company granted the demands of the employees as to general train forces would go into effect at 6 o'clock tonight. Failure to agree on the interpretation of application of working schedules and rates of pay, which in many cases were in dispute, constituted the principal cause of disagreement. Literal interpretation of the schedules was demanded by the men, while the company officials desired a "reasonable" interpretation.

As the result of a strike vote referendum taken several weeks ago, it is understood, the result was more than 97 per cent in favor of a strike. The fact of the country being engaged in war and a desire to add the government in every way possible was a strong factor in the acceptance by the Brotherhood chiefs of the mediation proposal.

It is expected that one of the members of the Federal Board of Mediation and Conciliation will be sent to San Francisco immediately to take up the various points of difference and bring the two sides to a permanent adjustment. The Federal Board consists of William L. Chambers, Judge Martin A. Knann and G. W. W. Hanger. Commissioner Hanger was in San Francisco four years ago in the role of a mediator in adjusting differences between the Southern Pacific Company and employees of its transbay electric system.

CHEAP AUTO FUEL

SAN FRANCISCO, Aug. 4.—Ordinary water with the addition of ten cents worth of a new chemical compound is all that is required to run a heavy seven-passenger automobile 100 miles, according to F. A. Korman, a San Francisco chemist, who has made public the result of his research for a cheap and efficient substitute for gasoline in motor cars. Successful tests, Korman says, have been made. In a test made last January by W. G. Campbell, secretary of the Kiesel Karm Company's Pacific Coast branch, who was designated to make it by the National Automobile Chamber of Commerce, Korman's new compound ran a six-cylinder Kiesel car loaded with seven passengers, one hundred miles up and down hills as well as on the level. A smaller car was driven thirty miles on two cents worth of the compound. Those who have tested it say the mixture responds more quickly to the throttle than gasoline. Chemical reaction when the chemical is placed in liberating hydrogen and oxygen gases is the principle of his discovery, Korman says. With these gases and the normal constituents of nitrogen as an air content, a highly combustible gas at the point of ignition is formed, giving an absolute substitute for gasoline, he claims.

OFFICER OUSTED

Patrolman Charles D. Deardorff has been dismissed from the police department by Commissioner F. P. Jackson who charged him with leaving his duties without permission. An appeal may be taken to the civil service board.

Four additional patrolmen have been appointed by the commissioner from the civil service eligible list to fill vacancies in the department. They are William Marshall and A. V. Monahan, who will go on as regulars, and J. C. R. McDonald and A. B. Searing, who will have the status of extra patrolmen.

NATIVES TO PICNIC

More than three hundred members and friends of Native Sons of the Golden West, Oakland Bay Division No. 235, will leave the North and Shafter station by special train at 10 o'clock tomorrow morning for Pinehurst picnic grounds. The program for this year's annual outing and picnic is arranged on a larger scale than ever before, and is in charge of the following committee: W. J. Dolan, W. A. Bradley, Geo. Wilson, Geo. Sackett, T. J. Goodfellow and A. F. Husechelt.

Neylan Brands Worthless, Board Created by Last Administration Inside Political History Brought to Light by Appointment of E. A. Dickson

(Special Despatch to The TRIBUNE.) SACRAMENTO, Aug. 4.—The appointment of Edward A. Dickson of Los Angeles as a member of the State Board of Control is bringing to light some inside political history that is proving highly interesting. It discloses a possible reason for the resignation of John Francis Neylan, former chairman of the State Board of Control and a close personal friend of Senator Johnson. In view of the fact that the tax commission was created by the last state administration many are wondering why Neylan suddenly discovered that it was worthless and the expenditure of money upon its liquidation.

It is generally believed here that the attack upon Neylan and certain other influences here hostile to Dickson and jealous of his standing with the governor. Dickson's appointment has met with general favor, notwithstanding the attempt to discredit him inspired by Neylan's friends. It is understood that the third vacancy on the board will be filled by the appointment of a northern man.

SALARY PROTESTED.

This gossip goes back to the days immediately following the adjournment of the legislature last April, and after Governor Stephens had taken over his office. Dickson had been a member of the State Tax Commission, a body that was organized by the 1915 legislature to make a special investigation of matters regarding taxation and report to the next legislature. This report was made and City Senator Johnson, the other member of the commission, resigned. Dickson continued in office, the claim being made that there was some unfinished work which would require several months to complete. There was yet about \$12,000 or \$17,000 of its funds expended, sufficient to pay Dickson's salary of \$5000 for a year and meet other expenses.

A crisis in the affairs of the commission arrived June 30, when a meeting of the Board of Control, John F. Neylan, then chairman, protested against the payment of Dickson's salary as follows:

"June 18, 1917.—Re. Tax Commission claim for salaries, month of May, 1917.

"I desire to record my vote in the negative on the payment of this claim. My reasons are:

"First, it was the intention that the Tax Commission should make a special investigation and report its findings to the legislature at the 1917 session, which adjourned April 27. The commission did make its investigation, and did file its report, and that its work was ended as a commission is apparent from the fact that the chairman of the commission resigned and was appointed to the State Board of Control, no successor being named on the Tax Commission.

"Secondly, the only argument offered in support of the continuation of the expenditure is that it is necessary to have a Tax Commission, composed of one man, to arrange for a conference of the states on taxation matters. Obviously this is ridiculous, particularly in view of the fact that if such conference is held, the state of California, properly to protect itself, will find it necessary to provide for representation by the regularly constituted state officers dealing with tax matters and expenditures.

"Thirdly, I oppose the payment of this claim on the ground that the one man constituting the commission renders only an unappreciable service to the state and devotes to the state's service only a fraction of his time.

"Fourthly, I oppose the payment of this claim on the ground that the Tax Commission, as now constituted, is a body that is not a necessary expenditure of public funds. It is obvious that the continuation of this commission is prompted by political expediency.

"JOHN FRANCIS NEYLAN, Chairman."

LOS ANGELES MEN.

Neylan's place on the Board of Control has not yet been filled, and Dickson will take the seat left vacant by Freeman H. Bloodgood, who has been appointed state real estate commissioner. According to this arrangement, the entire membership of the Board of Control is vested in Los Angeles county, the members being Clyde Seavey, Bloodgood and Dickson.

With one vacancy on the Board of Control, caused by the resignation of Neylan, it is pointed out that instead of that being filled by the appointment of a northern man it is purposely left vacant and a place made on the board for Dickson of Los Angeles through the appointment of Freeman Bloodgood to a commissionership, although it is said that Bloodgood will keep on acting as a member of the Board of Control for some time.

DEATHS

ABBOTT—in Oakland, August 3, 1917, Mary L. Abbott, wife of the late J. H. Abbott and mother of Mrs. Adie Sudrean, Mrs. Nellie Fletcher, Mrs. A. E. Hunter and Mollie and Gertrude Abbott, a native of Michigan, aged 72 years, 2 months, 25 days.

Funeral and interment private. Remains at the parlors of Wood-Hill Co., 1055 Telegraph avenue, Oakland.

BRENNAN—in Oakland, August 3, 1917, Mary D. Brennan, wife of the late John T. Brennan and devoted mother of Edwin and Mrs. Grace M. Connors, a native of New York.

Friends and acquaintances are respectfully invited to attend funeral services Monday, August 6, 1917, at 11 o'clock a. m., from the funeral chapel of Grant D. Miller, 2025 East Fourteenth street, corner of Twenty-fourth avenue, East Oakland. Interment Mountain View cemetery.

CAMPBELL—in Alameda, August 3, 1917, Winifred, widow of the late Martin and loving mother of Mr. Thomas and Martha Campbell and Bernard Campbell, a native of Ireland, aged 68 years.

Friends are respectfully invited to attend the funeral at St. Joseph's church, Alameda, Monday, August 6, at 3 o'clock p. m., when a requiem mass will be celebrated for the repose of her soul. Interment private. St. Mary's church, Alameda.

EVANS—in Oakland, August 1, 1917, John W. Evans, husband of Margaret Evans, and father of Mrs. H. B. Waters of Richmond, Utah; W. Walter and John Marshall Evans and brother of W. R. Evans of San Jose and Mrs. Billie Brown of Montclair, N. J., a native of New York State, aged 72 years 8 months.

Friends and acquaintances are respectfully invited to attend the funeral services Monday, August 6, at 10:30 o'clock a. m., from his late residence, 604 E. 14th st., Oakland. Interment private.

GRAHAM—in Oakland, August 3, 1917, John T. Graham, brother of R. G. Graham of Oakland and Captain Peter Graham of near Glasgow, Nova Scotia, a native of Nova Scotia, aged 62 years.

LIVINGSTON—Lillian H. Livingston services will take place Sunday afternoon at 2:30 Mountain View cemetery. Friends are invited.

WATKINS—in Berkeley, August 3, 1917, William Henry Watkins, beloved son of the late Mary Hardin, a member of Court Knutes through No. 8807, I. O. F., a native of Missouri, aged 61 years.

Friends and acquaintances are respectfully invited to attend the funeral Monday, August 6, 1917, from the parlors of Hudson & Butler, 1839 Eighth street at 2 p. m. Interment at Mountain View cemetery.

CASES CONTINUED

SAN FRANCISCO, Aug. 4.—Action on the cases of the various preparedness day bond case defendants was continued today in the courts in which they came up. In the case of Frank C. Oxman, accused of subornation of perjury, the continuance was for a week. The application of Mrs. Rena Mooney for bail will come up Monday.

PERMIT GIVEN FOR FIELD ARTILLERY

SAN FRANCISCO, Aug. 4.—With permission granted by the war department at Washington to General Hunter Liggett for the organization of a full regiment of the California field artillery, the work of forming six batteries, a regimental headquarters company and supply company—an organization of 1500 men, exclusive of commissioned officers—has been started. Four batteries and headquarters company have already been sworn in and it is expected that the remainder will be secured before the regiment goes into active training.

As a result of orders issued at the headquarters of the western department, 30 per cent more men will be taken into the second Presidio training camp than was at first intended. This will materially increase the quota of each state in the department. No additional applications will be received for the camp, according to Lieutenant Colonel M. W. Rowell, officer in charge of the training camp. The quota of 30 per cent will be chosen from the 1434 applicants selected for personal and physical examination prior to July 15.

Men who have been at the first Presidio training camp will not be given an opportunity of going through the second camp save in exceptional cases. Many who failed to obtain commissions in the first camp are applying for the second camp. Colonel Rowell is directly opposed to giving these men a chance on the ground that it "works a hardship" on those who are seeking initial training and deprives new men of their right to an original trial.

With the new quota in force the states of the western department will have the following representation at the camp:

California, 821; Montana, 186; Wyoming, 48; Idaho, 86; Washington, 226; Oregon, 121; Nevada, 16; Utah, 38; and Alaska, 26. The increases by states will be: California, 62; Montana, 19; Wyoming, 5; Idaho, 9; Washington, 23; Oregon, 13; Nevada, 3; Utah, 9; and Alaska, 3.

DEATH IS MYSTERY

AMSTERDAM, Aug. 4.—General Kolev, commander-in-chief of the Bulgarian cavalry forces, died suddenly in a sanitarium at Vienna. Although death apparently was due to blood poisoning, the police are reported to be investigating.

LITTLE WILL BE BURIED AT BUTTE

BUTTE, Mont., Aug. 4.—"Bury Little on the fighting ground," was the message received here by I. W. W. members from their president, William D. Haywood of Chicago, and as a result today arrangements were made to bury Frank H. Little, who was lynched here Wednesday, in Butte Sunday afternoon. It previously had been planned to ship the body to Yake, Okla., for burial.

The lynching of Little will be made of nation-wide interest if the plans of the I. W. W. are successfully carried out.

A death mask of Little has been taken, and many other masks will be made from it and sent to important I. W. W. centers of the country. It is Haywood's determination to make a martyr of Little. Pictures of the corpse also have been taken for circulation throughout the country.

for a real vacation

this year visit Santa Cruz, on Monterey Bay, where there is every vacation attraction for young or old.

The climate is delightful. The broad beach is safe and clean. You can rest as much as you please.

Golf on a sporty 18-hole course, play tennis, swim in surf or plunge, fish in river or ocean, yacht, climb mountains, motor over picturesque mountain or seaside drives.

Good auto roads lead to Santa Cruz. The Southern Pacific gives very low rates.

Santa Cruz is an ideal family resort. A vacation there need not be expensive. Write the CHAMBER OF COMMERCE for full information about the ample and reasonably priced accommodations available if you

SATURDAY, AUGUST 4, 1917.

LET THERE BE A HARBOR SURVEY.

The course preliminary to the development of the western waterfront which Commissioner of Public Works Morse outlined in his statement of yesterday is the only one certain to give general public satisfaction and to safeguard the best interests of Oakland. It should be adopted by the city council and scrupulously adhered to.

Mr. Morse declares that before a franchise for the establishment of a manufacturing plant on the western shore line is granted he will demand that a permanent survey be made of this section of the waterfront which will for all time settle such disputes as have arisen over the application for a franchise of the Union Construction Company. The civil service commission has recommended the appointment of a harbor engineer to supervise harbor development work, and the city should first make a general survey of the harbor and adopt it as a permanent policy for the guidance of the harbor engineer.

Although Mr. Morse did not specifically so state, it is presumed that his idea of a survey of the western waterfront includes a survey of all the harbor and waterfront facilities of Oakland. These should be developed and controlled as a unit and each section so utilized as to bring the greatest advantage to the city. A certain section of the waterfront is adapted to one class of business and other sections to other classes; it would be a serious mistake to misuse the valuable and extensive harbor advantages which Oakland possesses.

A large portion of the people, a majority of those who have given careful thought to the question, believe that the waterfront of the Key Basin should be devoted to a modern system of wharves, warehouses and rail terminals, that this is the best use to make of the excellent harbor in front of the present bulkhead. A comprehensive, expert survey of the harbor situation will serve to compromise all the differences of opinion in connection with this matter as nothing else can. All intelligent and sincere controversialists will readily submit to the opinion of an expert of good standing and known ability.

Such a survey as Commissioner Morse urges coincides with the view of the harbor committee of the Chamber of Commerce. It is also understood that the port commission, before its disbandment a few weeks ago, agreed that such a survey should be made before the adoption of any plans for the use of the western waterfront and that the idea received the approval of Mayor Davis. The city council should order a survey immediately.

NOT HELPING AMERICA.

Leaders of what is styled the "Sixth American Conference for Democracy and Terms of Peace," have sent circulars to all addresses they could obtain, usually to the woman members of a household, inviting attendance at meetings in San Francisco August 8th and 9th. A request for a money contribution is included. The first name on the list of sponsors is Dr. David Starr Jordan, whose astonishing brand of legal and moral logic was exhibited by his declaration in New York city that one should not be punished for violating a law that has not been declared constitutional. Associated with his name are those of John D. Works of Los Angeles, Miss Fola La Follette of Wisconsin, Miss Alice Park of Palo Alto, Max Eastman and Morris Hilquit of New York and Jenkins Lloyd Jones of Chicago, the latter known as a member of the "peace argosy" bossed by Madame Rosika Schwimmer of Austria and financed by Henry Ford.

The first object of the conference is stated to be "to secure an early, democratic and general peace, in harmony with the principles of New Russia, namely: No forcible annexations, no punitive indemnities, free development of all nationalities."

This statement contains a naked falsehood. These principles were not enunciated by "new Russia"; they were the utterances of pro-German propaganda in Russia, promoted by Lenin, the paid German agent, and his associates, and were designed to synchronize with the pro-German scheme which the Kaiser's agents, led by Philip Scheidemann, planned to carry out at Stockholm.

But granting that the program may conform with the view of the government of the Russian republic, the agitation is unnecessary for any legitimate purpose in this country. President Wil-

son has outlined the motives of the United States in going to war. America wants nothing material out of the war—no territory, no money. It believes in the principle of free nationalities, the doctrine that every people has the inherent right to decide what form of government it shall have.

The President has also stated the object of our fight, something which the "conference" pretends to want stated again. It is to make the world of free democratic peoples safe against the murderous aggressions and the policy of assassination of small and helpless nations of the Prussian military hierarchy. That object may be considered accomplished when the ruling clique that has violated the laws of nations and outraged the rights of humanity is repudiated by the German people and representatives chosen by the German nation whose word we may trust and whose hands we may touch without contamination.

Such agitations as are being promoted by Dr. Jordan and his associates give comfort to the enemy by attempting to confuse the work and the purposes of their own country.

ITALY COMPLAINS.

It is reported from Washington that Italy is becoming displeased at her failure to secure from her allies supplies which her representatives in this country claim would enable her to swing the balance of the war. Coupled with this report is the reference to the intense desire of the Italian government to see the United States declare war on Austria-Hungary.

The complaint of Italy that she is not getting her share of American aid is a distinct surprise and it is to be hoped that no substantial basis exists for it. It has been presumed all along that the United States was giving to its allies all the assistance, in men, money and materials, which it was possible to muster; and that this assistance was being applied where the administrators of the entente coalition deemed it would be most effective against the common enemy. No report has come from Europe of any feeling on the part of Italy that she was not receiving proper consideration from her European allies.

If, however, Italy has discovered that the United States is desigining withholding any possible assistance from her, it is a serious matter. And it would be a most regrettable incident of the war if it should be proved that this is due to the fact that the United States has not formally declared war on Austria, the frontier enemy of Italy.

That this country has not declared a state of hostilities with Austria to exist is one of the inconsistencies of the war. The government at Vienna has formally endorsed all the barbarous outrages committed by Germany including, specifically, the decree of indiscriminate submarine warfare of February 1st, which caused President Wilson to abandon all hope of maintaining peace with Germany. Her naval officers have also committed the crimes of attacking and sinking unarmed and innocent American vessels and the Austrian ambassador, the despicable Dr. Dumba, was one of the most active Teutonic agents in stirring up riots and sedition in this country, to which he was officially accredited.

It has never been explained why we did not declare war against Austria immediately we went to war with Austria's Hohenzollern dictator. Yet there may be some good reason of tactical politics which will prove generally satisfactory when known. Remembering that she did not declare war on Germany until fifteen months after she had gone to war with Austria, Italy should not complain on this score unless, of course, it works to prevent the fullest cooperation between the United States and Italy in overcoming the Teutonic alliance. Whatever the omissions of the diplomatic record we are as much at war with Austria as we are with Germany.

THE SERVICE OF ALIENS.

The question of drafting aliens presents many interesting aspects. It is not an easy problem. Several treaties stand in the way of absorbing aliens into the United States army. Although most of the nationalities would be without treaty exemption, it is not to be expected that the United States would be so unwise as to attempt to draft without treaty exemption. That would not be politic, even if there should be evidence to show that the foreign governments were willing to round up all their expatriated slackers.

The United States should have a definite understanding with each nation concerned before it undertakes to draft aliens.

Assuming that the draft could be accomplished, it is quite possible that the total number of aliens drawn into the army would be small indeed. Aliens do much of the indispensable work of this country. Their muscle is the foundation of great industries. These laborers are more useful where they are than they would be in uniform at the front. If the proposition should be to enact a draft law so that aliens should be subject to military service, but exempted while actually at work in industry connected with the allied war operations, it is possible that general consent could be obtained from the governments involved.

Sooner or later it is probable that the United States will be compelled to place labor on the farms under a system of conscription. The frightful specter of international famine will not down. Americans treat this subject lightly, surrounded as they are with abundance, but the reports from foreign nations are all of one tenor. The world will be very short of food before next spring, and by the following spring it will be on starvation rations unless production is materially increased. England is wonderfully increasing her agricultural production, and France is more than holding her own. Nevertheless, the demands are enormous and increasing, and the drain upon the United States has not yet begun. There are limits to the production in England and France, but practically none in America if labor can be found and applied to the task.

Whether fighting at the front, working in factories or getting in crops, the aliens crowded into corners of our great cities must be put to useful service. All alien enemies, once interned, should be required to be useful in increasing the food supply. All prisoners, of course, should be put to work.—Washington Post.

NOTES and COMMENT

The score at Vernon indicates that there is a worse ball team than one nearer home, which is a surprise and in a way a gratification to local pride.

The machinists in the Hall-Scott munition shop seemed to have deferred thinking it over till after they walked out. That they are now anxious to walk back, but that the proprietors are not ready, and will do some weeding, is pretty fair proof that it is best in important things to do the ruminating beforehand.

Dr. Barrett says that municipal graft is "an ancient game." The antiquity of it is not so important as how to circumvent the modern effort to perpetuate it.

The Redding Courier-Free Press refers to that saying of General Sherman: "Eight hundred new laws went into effect in California Friday. It's a cinch that the man who said war is hell didn't know anything of legislatures."

Resignations from the exemption boards throughout the state amount almost to a stampede, and indicate that the task of passing upon excuses of the drafted are not relished by most men. It is rather a ticklish position, but a good many duties in war time are onerous.

The headline reads, "Heroic Women of Russia Rush Wildly to Arms." The cynic would say there is a distinction between the Russian women and others in rushing to arms. The arms that the Russian women are rushing to are war weapons.

The political puzzle just at present is whether Colonel Irby is going to accept the collectorship of internal revenue at San Francisco. The general public is curious, but several gentlemen who want the job are deeply anxious.

The Santa Ana Blade digs at its big neighbor: "The governor of Oklahoma refused to wear a silk hat and a frock coat at the reception given the Belgians. For which the Belgians owe America a great deal, but asking them to keep a straight face while looking at the Los Angeles city councilman in silk hats and frock coats, was presuming on friendship."

There is an account of a suit brought in San Francisco, involving a transaction in the malodorous onion corner. It is going to be difficult to get up sympathy for any one who may suffer in such litigation.

In view of the detronements that have been occurring in recent times it has come about that the Empire is almost the only absolute monarch that remains, and his realm is just now a little shaky.

A magistrate who advises a delinquent husband to "reform or jump in the lake" is a good deal of a help. He cannot lean on the statutes for support. Nevertheless, if his admonition should be followed it would produce results that he seemed to have had in mind.

We are being pretty well regulated, but San Leandro would go farther, and have the supervisors say how much cloth should go in a bathing suit. Some of its people have been shocked at suits at the beaches, and which they apparently just couldn't help looking at good and plenty.

From the Gold Hill News and purely personal: "Elam Gall was attending to business matters in this city Wednesday, having driven down from his Sams Valley place early in the day."

SPIRIT OF THE STATE PRESS

The last carload of watermelons from Holtville was shipped today by the Holtville Dietos. Although Dietos still has many melons left on his place north of town the market has dropped so it hardly pays to ship. The melons are rotting on the place, and Dietos recently made an offer of a special rate to hog men to come and pick the melons.—Holtville Tribune.

Ed. R. Gorman would make a great white way of his cotton field, if he carried out a plan he discussed here yesterday. Mr. Gorman thinks of getting a number of canvas bags to be distributed over the cotton field and lighted at night. This, he believes, would attract bugs and all other insects that are damaging the cotton and kill them. Cotton men generally have been complaining that the insects are damaging cotton.—Holtville Tribune.

The first albicore containing spawn which has been taken from these waters since last time, was taken to the Van Camp Cannery at San Pedro, Thursday. Federal authorities have been trying for some years to solve the problem of the migrating albicore. The spawn found in the fish on Thursday was promptly canned and sent to the U. S. bureau of fisheries at Washington. Two years ago an albicore containing spawn was landed by an angler fishing between Catalina and Clemente Islands.—Avalon Islander.

D. R. Oliver, who is one of the best informed men on the fig industry in the United States, says figs are going to be real money this year. A few years ago, figs were bringing about \$50 a ton and netted a fair profit, while at present they are worth at least twice that much. Incidentally, the cost of caring for them has increased, but fig culture is to be looked forward to as one of the leading industries of this country. According to Mr. Oliver a few acres of figs helped along with brain and brawn will mean a comfortable old age.—Merced Star.

For lack of room Sunday last, Col. Harris Weinstock and Ralph Merritt, who were using their utmost endeavors to bring about an amicable settlement between the various canneries and their employees, were assigned to the chambers of the Cooks and Waiters union in the labor temple. While the colonel was pleading for a settlement of the difficulties existing between the competing factions, the door to the room opened and a man with a loud voice called out: "Say, boss, have you got any job here for me? I'm a San Francisco cook!"—San Jose Mercury.

TIME TO SPRAY THE PLANTS

—Rebus in New York World.

PRAISE FOR TRIBUNE POLICY

Public Welfare Commission and Others Endorse the Decision to Bar Objectionable Advertising

To the Editor of The Tribune:

I was pleased when I noted, a little while back, that you had dropped the last of the "ads" of the disorderly "massage parlors"; when the "ads" of — and — went by the board I was able to throw into the waste basket a communication that I had not long before received with these displays clipped from your paper and some very caustic comments thereon by a citizen of Oakland; and now, when I ring up your advertising manager to get more particulars and learn that the worst of the quick remedy "ads" are going into the discard today, my enthusiasm rises to the point where I must write you at once and congratulate you on your very commendable stand in favor of honesty and decency and against the exploiters of shame and weakness.

Your move will do much to hold up the hand of our local health officer in his efforts to control communicable disease in the interest of the efficiency of the troops.

May your paper prosper as it deserves to under the new dispensation.

Cordially yours,
HELEN S. ARTIEDA,
Executive Secretary Public Welfare League.
Oakland, July 31.

To the Editor of The Tribune:

It gave me great pleasure to learn today that you had decided to eliminate from your influential publication, The Oakland TRIBUNE, certain forms of questionable advertising. The

TRIBUNE has in my estimation been improving since it has been under present control, and this long stride in advance will place it in the forefront of our daily papers. I wish at this time to congratulate you and wish you the largest possible success.

Sincerely yours,
T. B. HOMES.

Oakland, July 31, 1917.

To the Editor of The Tribune:

The Council of the Alameda County Medical Association has noted with a great deal of satisfaction that you have closed your columns to much objectionable advertising, and wishes to take this time and means of congratulating you upon your action.

We realize that this means the loss of considerable revenue but believe that the action taken is for the best interests of the community. Yours very truly,

THE COUNCIL OF THE ALAMEDA COUNTY MEDICAL ASSOCIATION.

E. E. BRINCKERHOFF, M. D.,
Aug. 3, 1917. Secretary.

BARS "OBJECTIONABLE" ADS.

The Oakland (Cal.) Tribune has taken the position of refusing space to advertising that can in any way be objectionable to its readers in the home. In one or two instances THE TRIBUNE is under contract for advertising which it is legally bound to carry out, but which will not be renewed.—The Fourth Estate.

FOR CLEAN ADVERTISING.

The Oakland (Cal.) Tribune has announced editorially that it "has now taken the position of refusing space to advertising that can in any way be objectionable to its readers in the home."—The Editor and Publisher.

SATURDAY,

AUGUST 11TH

CALIFORNIA GUARDSMEN SUMMONED

More than 6500 California National Guardsmen will be called into active service tomorrow, when the government orders its last group of soldiers mustered in. Exactly 75,745 men will be included in the call and at the same time all militia troops not now federalized will automatically be summoned.

With this latest call the country has an estimated total of 400,000 or more National Guardsmen ready for intensive training in Southern camps.

The states called tomorrow, their strength and their training camps are as follows:

NUMBERS AND CAMPS ARE ANNOUNCED

California, 6591, Utah, 1358; Arizona, 665; Colorado, 3950, and New Mexico, 1276, to train at Linda Vista, Cal.

Arkansas 6019; Mississippi, 4438, and Louisiana, 2888, to train at Alexandria, La.

Kentucky, 6164, and Indiana, 6149; to train at Hattiesburg, Miss. along with West Virginia, called July 15 and now assigned there.

Kansas, 8144, and Missouri, 14,146; to train at Ft. Sill, Okla.

Alabama, 5487; Georgia, 5629, and Florida, 2842, to train at Macon, Ga.

SUPPLIES OF FOOD

AMPLE FOR GUARD

There is talk also of converting some of the canvas camps into cantonments. Secretary of War Baker has not indicated how extensive such a shift might be.

General Mann, head of the National Guard, and its quartermaster officers predict there will be sufficient supplies for the guardsmen, though for some time it has been necessary to draw on supplies caused by outfitting the regular army, particularly the expeditionary forces.

FOR JITNEY LINE

S. P. Blumenberg, proprietor of the Blue Star Auto Stage Service, has filed with the commission an application for authority to run a jitney line for passengers, messenger service, express packages and freight, and between Walnut Creek, Danville and Oakland and intermediate points. The Southern Pacific Company and the Oakland, Antioch and Eastern operate between these points, but there is no regular jitney line. Blumenberg wants to charge 50 cents for passengers and to run two trips on week days and one trip on Sundays, and on Sundays to run a jitney to the Alameda Baths. He has an equipment of one Ford automobile seating eight passengers.

WILL BE GUESTS

Charlotte Greenwood, who took the character of Letitia Proudfoot in the comedy, "Pretty Mrs. Smith," Sydney Grant, the original Bobby Jones, and James, who composed the music for the play, will be guests of the Oakland Orpheum at the matinee tomorrow to see the Orpheum company produce a play. Boxes have been reserved and it is expected that the entire "So Long Letty" company will come across the bay.

WOMAN IS FREED

Mrs. Margaret Myers who was charged with inducing her six-year-old son to squirt acid at Deputy Sheriff Joe Soares and Bert Brown when they appeared in her home on election proceedings three weeks ago, has been discharged by Judge Judge. She is following a hearing of the case. For several days Mrs. Myers while in the city prison refused to partake of food, until her son was brought to her.

BUY A TON OF GUM

The American Chicle Company is selling its chewing gum to the jobbers by the ton. The first jobbing firm to place an order for a ton of chewing gum is that of H. S. C. Bercoff of this city, which bought the whole line manufactured by the American Chicle Company.

KRYPTOKS

Notices to Halt Enlistment Draft Ruling Is Received No. 1 District Now Complete

All men who have received notice to appear before the draft boards are barred from enlisting voluntarily, according to instructions which have been received by Lieutenant Colonel John H. Gardner, in charge of army recruiting in this district. The seven Oakland boards are preparing to have all notifications sent out by tonight if possible and after these notices have been received the drafted man must await the disposition of his services determined upon by the War Department.

The board in Exemption District No. 1 has completed its list for the first call. The 396 men in this district will be summoned in three detachments, the first Wednesday, second Thursday and third Friday. The names of those in this district are published herewith, the order number being indicated by the position of the names in each column beginning at the first and continuing to the top of each succeeding column.

The members of District No. 1 are N. J. Herby, chairman; Jacob Schaffer and I. Jordan. The board will meet in Room 701, City Hall.

M'ADOO SECONDS

LANSING'S VIEWS

MONTEREY, Pa., Aug. 4.—Secretary of the Treasury William G. McAdoo, in a speech here, declared "We intend to vindicate and make triumphant the principles of human liberty if it takes every drop of blood in the veins of every American freeman."

"The world may as well understand," he added, "that this fight will be fought to a finish—until justice is done, until Belgium is restored, until guarantees are secured that the rights of the smallest nations upon the face of the earth shall be respected and held as sacred as the rights of the most powerful."

The Secretary addressed a gathering of about 500 persons at a fair for the benefit of the Red Cross held at the little Episcopal church near his country home here.

The speech of the Secretary is understood to have been submitted to the President and to have received his approval before McAdoo left Washington yesterday.

Its tone excited considerable comment since it followed so closely that of Secretary of State Lansing's speech recently in which Lansing firmly proclaimed that the United States would fight until German imperialism was completely crushed. At that time members of Congress warmly criticized Lansing's sentiments, holding that he was not reflecting the views of the Administration in taking such a strong stand against an early peace.

One of the social functions of the occasion will be the citizens banquet at the Palace Hotel to which several thousand representative citizens of San Francisco and the bay district will be invited. An elaborate banquet will also be given at the Fairmont Hotel to the Japanese residents of California which will be strictly Japanese in character.

Announcement was made today by Mayor James Rolph, Jr. that Assistant Secretary of State Benedict Lonsdale will arrive in San Francisco on August 11 to confer with the general committee in the matter of the entertainment to be offered the distinguished visitors.

LONG AIR TRIP

WASCEA, Minn., Aug. 4.—Four officers of the army signal corps ended a balloon flight from Omaha on a farm four miles south of this city today. The trip of 226 miles was made in six hours, which is said to be a record. The journey was uneventful.

CLUBWOMEN WORKING FOR BOND ISSUE

Women's clubs all over Alameda county are taking a keen interest in the county bond issues coming up for a vote on August 14. Particularly are the women interested in the success of the county hospital and county infirmity issues.

In Berkeley the clubwomen are rallying to the bonds under the guidance of Chief Vollmer. The Berkeley charity organization is to hold a meeting to discuss the bonds next Wednesday at the home of Mrs. J. H. Laffer.

Interest in the bridge bonds also is widespread, according to reports coming into headquarters from various sections of the county. In connection with the campaign for these bonds the following statement, showing the traffic capacity of the proposed bascule bridge, has been issued by H. A. Laffer.

"The present bridge, on account of its very slight clearance above the surface of the water and the necessity of its opening for all classes of craft, including small launches, is open on the average 300 minutes in each 24 hours, the time of opening varying from 5 minutes to half an hour. The chief causes of congestion and delay on the present bridge are the long and frequent openings, and, furthermore, these openings tend to occur at those times in the day when traffic is heaviest.

TREBLE EFFICIENCY

"The proposed bridge will have a clearance in the center of 28 feet, and it is estimated that the number of openings will be 15 daily, each requiring 3 minutes.

"This radical decrease in the number and the time of the openings at least trebles the efficiency of the bridge at one stroke, even if the roadway were not widened at all. The present fact has been lost sight of in many discussions of this subject.

"In the second place, the width of the roadway of the proposed bridge of 36 feet, while not double that of the present bridge (of 24 feet) over more than doubles the conditions of warfare where there are but two lanes of traffic, especially if that traffic is fairly heavy, the slowest moving vehicle largely determines the speed of all vehicles behind moving in the same direction. But where there are four lanes of traffic, the slowest moving vehicle can readily switch from one row to the other and maintain their speed. There is excellent authority for the statement that four rows of traffic equal not twice the capacity of vehicles on two rows, but from three to four times the capacity of vehicles in two rows.

"It is upon these premises that the conclusion that the proposed bridge will handle six times the traffic of the present bridge is based.

WILL INCREASE TRAFFIC

"A 36-foot roadway, allowing nine feet for each row of vehicles, is considered ample by all authorities on this subject and it is a great mistake to take the position that because each street car requires ten and one-half feet that only seven and one-half feet remains for vehicular traffic.

"The bridge is 2200 feet long; the average headway of the street cars is from 10 to 15 minutes. If motor vehicles travel at the rate of 15 miles an hour, each vehicle will be on the bridge about two minutes. Therefore, only one vehicle in four, or 25 per cent of the whole, will pass a given point in 25 minutes. The number of vehicles that do pass a street car pass that street car going in the same direction in a distance of, say, 100 feet, and in the remaining 2100 feet of the bridge have a clear roadway nine feet in width.

"There are a certain number of vehicles, such as sightseeing busses, which will not be able to pass a street car going in the same direction, but these amount to less than one-half of one per cent at the very fullest estimate of all traffic and it is highly improbable that such a small number of vehicles will desire to travel at a more rapid rate than the street cars in any event."

WHAT IS DOING TONIGHT

Carl Lanzer gives concert, Skyland Hall.

Orpheum—Potash and Perlmutter.

Pantages—Singer's Midgits.

Edwards—The Haunted Pajamas.

Hippodrome—Human Hearts.

Columbia—Will King in Sixty Days.

D—Vivian Martin in Forbidden Paths.

American—The Haunted Pajamas.

Kinema—Stuart Holmes in Broadway Sport.

Franklin—Dorothy Dalton in The Flame of the Yukon.

Idora Park—Island beach.

Norfolk Beach—Surf swimming.

Lake Merritt—Boating.

WHAT IS DOING TOMORROW

Art exhibit, Auditorium.

Iroquois Council gives whist party, Sierra King Hall, evening.

Rebel Club—Benefit Association holds reunion, Shellmound Park.

Singer's Midgits to Be Entertained Before Departure

The most popular of all Oakland entertainers this week are the midgits to be entertained before their departure. The wonderful little midgits are to be the guests of the Kinema management at the 12 o'clock matinee of "Joan the Woman" tomorrow.

These clever little people have demonstrated their interest in matters of wide-wide interest, and have expressed the keenest desire to see the wonder film of the day. In order to give their guests time to make traveling connections, the matinee of the Kinema announcement performance is to start promptly at 12.

ARMY FIGHT IMPENDS ON BRIGADIERS

By John Edwin Nevin, International News Service Staff Correspondent.

WASHINGTON, Aug. 4.—The biggest army fight in the history of the service impends today. It is between the younger element and the older. Before it finally is settled there is a distinct likelihood that Congress may be injected into the situation.

The fight comes over the question of promotion to general rank. On President Wilson's desk today is a long list of colonels recommended to be made brigadier generals. The list was compiled by Major General Tasker H. Bliss, acting chief of the general staff.

The average age of the men who were thus suggested for promotion and incidentally for leading the heavy fighting on the battle line in France is above 59 years. This in face of a recommendation by Major General Bliss, an avowed and full command of the American forces in France, that the age limit for brigadier generals be fixed at about 45.

General Bliss represents the old school in the army. He is a strong believer in the system of promotion by seniority. It is in accordance with this belief that he has recommended the ranking colonels for promotion.

In the last list of promotions a number of colonels were overlooked by General Bliss because he feared that they might be too old for the hard service that would be found in France. It is admitted that some of these old men have been marked now for promotion by General Bliss.

It is understood here that General Pershing's recommendations as made to the war department declared that modern warfare was no work for an old man. He pointed out that these men undoubtedly were fully equipped from a scientific viewpoint for directing fighting they did not have the vitality and vim to stay with their troops in the violent work that must be faced in fighting the Germans. In making this recommendation General Pershing had the advice of Field Marshal Joffre of the French army and of General Haig of the British army. They pointed out that modern conditions of warfare the brigadier generals were compelled to get personally into the game and to stay with their men in everything that was met. Old men cannot stand the pace, Pershing was told, and this is the message that he sends back to the country.

Up to the present there has not been the slightest disposition on the part of Congress to interfere with army promotions. It has been accepted as a fact that the army had to do the fighting and that it should know what it wanted. But certain charges of favoritism have been made in connection with the system of officers' training camps that have caused certain Senators and Representatives to make inquiries. Many of them have asked the war department, without

Pennoyer and His Bride Are Off on Honeymoon

MRS. RICHARD EDMONDS PENNOYER (LADY WINIFRED INGESTRE).

Former Oakland Youth and Diplomat Weds Widow of Soldier

Mr. and Mrs. Richard Edmonds Pennoyer are spending a quiet honeymoon in one of the charming retreats in the British Isles before returning to London to take up their residence. The marriage of the former Oakland man, the son of Mrs. A. A. Pennoyer, and Lady Winifred Ingestre was celebrated on Thursday at a simple ceremony which was witnessed by a small group of intimates in London. Pennoyer is a graduate of the University of California and of the Oakland High school. His rise in the diplomatic service of this government has been remarkable, he now holding the post of second secretary to the American embassy in London.

One of the most beautiful of the titled women of England, she is the daughter of the late Lord Alfred Victor Paget. Her first husband who was killed in France during the opening engagements of the war, was the second son of the Earl of Shrewsbury.

Receiving any answer, why it was that previous military experience seemed to be a bar to a man getting a commission.

ARMY, NAVY INSURANCE PLANS DIFFER

By Homer J. Dodge, International News Service Staff Correspondent.

WASHINGTON, Aug. 4.—The differences between Secretary of the Treasury McAdoo and Secretary of Commerce Redfield over army and navy insurance, which have been reported to threaten the resignation of Redfield from the President's cabinet, are to be aired when the war insurance measure comes up in Congress, it was learned today.

No resignations are expected, and there is no personal bitterness between the two secretaries over the insurance matter, but there does exist a difference of opinion as to the sort of insurance which should be given the men who are going to France to fight under the American flag. That is all involved the question of who in the government shall have credit for initiating a plan for army and navy insurance.

SWEET PREPARES PLAN. Assistant Secretary of Commerce Sweet, at the suggestion of the National Council of Defense, prepared a plan for insuring soldiers and sailors which he reported back to the council. It was expected this plan would be given publication, but it was not. Instead, Secretary McAdoo called a conference of insurance men to Washington and told them the President had suggested he formulate plans for insuring soldiers and sailors.

Sweet attended this conference and addressed it. He covered the insurance situation in a general way in his speech. Following the conference, Secretary McAdoo and his advisers drew up and announced to the public a plan for army and navy insurance somewhat different from Sweet's original plan.

DIFFERENCE IS STARTED

It was at this point that the difference between Redfield and McAdoo started. Redfield thought Sweet had given credit for the insurance plan and his ideas should be included in the recommendations to Congress.

Sweet holds insurance should given alike to enlisted men and officers because in the national opinion there should be no discrimination. McAdoo's plan provides for insurance solely in terms of rank.

Sweet recommended that soldiers be insured for partial disability, in view of the fact that injuries resulting in partial disability are most common. While McAdoo's plan provides insurance only for death and total disability.

It is understood a fight is to be made in Congress to have Sweet's ideas put into any insurance law which goes on the statute books.

If Uncle Sam Could Talk

He would say: "I Must Have Stenographers"

to fill the many vacancies in my office forces all over my country. Come and work for me. I will pay you a BEGINNING SALARY of \$900, \$1,000 or \$1,200 a year.

I will advance you on merit alone. If you are capable, you should soon be earning from \$1,200 to \$1,800. Many of my employees are paid from \$2,000 to \$5,000 a year. Some of my most valuable and highly paid assistants started as stenographers. One stenographer who entered my employ at \$900 advanced rapidly to an \$8,000 position. He got his start with me—my training paved the way and a big corporation is now paying him \$100,000 each year.

My office hours are from 9 a. m. to 4:30 p. m. I do not ask you to work on holidays. I will give you Saturday afternoons off from June 15th to September 15th. I will give you thirty days' vacation each year WITH FULL PAY, and in meritorious cases, thirty days' sick leave WITH FULL PAY.

If you do not care to come to Washington, I have a place for you near your home. I employ stenographers in every State in the Union. There are countless opportunities open to you. For years the demand for stenographers has been greater than the supply. I NEED YOU!

The Polytechnic Business College

has received advice from the U. S. Civil Service Commission which says:

"There is practically no limit to the number of stenographers and typewriters the government needs. The commission believes that the study of shorthand and typewriting by a great number of persons with the view of entering the government service will be justified."

\$75.00 to \$100.00 Per Month for Beginners

The commission states that "That usual entrance salary is \$160.00 to \$1200 per year, with advancement reasonably rapid." COME to the Polytechnic College and we will prepare you for immediate employment. We can guarantee to secure good positions for every graduate the coming year.

OAKS DROP THEIR FIRST GAME OF WEEK ON STUMPF'S ERROR

PERCY AND FERDIE—If It Isn't One Thing, It's Another

By H. A. MacGILL

Creator of the Hall-Boys

CALVO DRIVES IN TWO IN NINTH- INNING WIN

BY CARL E. BRAZIER.

One of those games of the hand lot variety that you would not miss for a dozen of the 2 to 1 or 1 to 1 games was dished up by the Seals and Beavers yesterday. The Seals had a 2 to 1 lead at one stage of the game and even when the Beavers put over five runs in the seventh frame nobody seemed to figure any way but that they had almost won. But the Seals themselves thought again any time they wanted to. But when the Beavers came through with three runs in the eighth and ninth and went out in front with a one run lead, it looked as though the Seals had figured wrong.

For the Seals had not been fooling; he had been out there trying and that seventh inning rally of the Beavers was a success in getting the Seals to stop. The Beavers were hitting him hard and they were not hitting anywhere near the Seals' fielders. But in the last of the ninth, McCordie lofted a fly ball and the Seals found James and Honck more to their liking than Pincher had been for the preceding five innings. James gave the Seals a start with a walk and Honck was at once rushed out to save the day. Honck made matters worse by throwing in a wild pitch and walking the next man. Griggs knocked one on a single and the bases were filled. On Fitzgerald's grounder to Griggs, the tying run was out off at first. But Harry Pick, who is coming in for a lot of praise these days by his great work around the third base, worked Honck into a third ball and two strike hole, but Calvo saved the day and broke into the hero ranks with a high drive to right. It looked like a sure catch for White, but he went too far to the left and it fell safe for a two-bagger, two runs counting to get the Seals out in front again for a final.

The Seals had made their seven runs in the first five innings. In the first inning the Beavers got a run on a single. Schaller's steal was thrown in with Corhan's double and singles by Calvo, Schaller and Koerner. In the third frame Corhan doubled, Corhan walked, Schaller stole third and scored when Fisher's throw went wild. A single by Downs and a double by Fisher and a single by Corhan and another double throw by Fisher put the Seals in front with a 2 to 1 lead. In the fifth frame Calvo singled and scored when Fisher's throw went wild. In the sixth frame Calvo singled and scored when Fisher's throw went wild. In the seventh frame Calvo singled and scored when Fisher's throw went wild. In the eighth frame Calvo singled and scored when Fisher's throw went wild. In the ninth frame Calvo singled and scored when Fisher's throw went wild.

Murphy's Triple Counts in the First Inning, But Oaks Cannot Hit in Pinches Later in the Game

(Special to The Tribune)

LOS ANGELES, Aug. 4.—Bill Stumpf spoiled Rod Murphy's chance to continue his hero stunt right through the week yesterday. Murphy has been hitting the ball right along in the pinches for the Oaks this week and he did it again in the first inning yesterday and gave the Oaks a 2-to-0 lead that looked good for the old ball game until Bill Stumpf came through with a wild heave that let in one run and kept an inning open for two more. The net result was a 4-to-2 Vernon win, the first game that the Oaks have dropped in the series this week.

There are three games remaining in the series and the Oaks need only one of them to cinch the honors of the week's play. Also the Oaks need just as many wins in their remaining three games as the Beavers get against the Seals for the rest of the week. Otherwise the Oaks will drop back into fifth place, for the Beavers are trailing only half a game behind the Howardsmen and can step up a peg over night.

GOODBRED DESERVED TO WIN

"Happy" Goodbred hurled a good game of ball and would have probably pulled through with a 2-to-1 win had it not been for Stumpf's error in the pinch. Neither he nor Fromme issued a walk, but this is coming to be quite a regular thing with Goodbred, who is fast climbing up into a position of honor in pitching more walkless games than any other hurler in the league. Goodbred was hit for eleven hits, two of them being doubles. Fromme was hit for only ten hits, but one of those was Murphy's triple. Vaughn and Callahan for the Tigers and Stumpf for the Oaks were the error makers of the game. With a total of twenty-one hits and three errors, the score was exceptionally low, showing that the players were on the job with some fast fielding work—more so than the fielding records of the league would indicate. For Vernon and Oakland are at the bottom of the list with more errors than any other clubs.

The Oaks started early to get Fromme yesterday. With Lane on first through a force-out in the first inning, Rod Murphy came through with his triple that chased in a run. Then came "Hack" Miller with a single to right and Murphy was over the plate. Also the Oaks were over their scoring activities.

MURPHY'S HITS ARE WASTED

Murphy hit twice more during the game and he did a great day's work with eight clean chances handled at the third base corner. But his other hits were of no use in the run column, for the rest of the boys could not hit Fromme when the hits would have counted.

It looked like a 2-to-0 game until the seventh, when Daley singled and rounded to third on Stovall's double, scoring when Callahan sent out a long fly to Lane. Simon bounded one to Gardner and Stovall was thrown out at the plate, although there would have been no chance of heading off Gardner because nobody was on hand to cover first.

FROMME'S HIT A STARTER

In the eighth came the blowup of Oakland hopes. Art Fromme figures as a pitcher, not as a batter. But it was his single that gave the Tigers their start in the eighth. Gleichmann was sent in to run for him. Chadbourne's sacrifice moved the runner ahead, but he was caught between second and third when Vaughn hit one to Murphy. Vaughn rounded to second on the play and then scored with the run that tied the score when Stumpf threw low on a slow roller from Snodgrass. Singles by Daley and Stovall counted two more runs before the inning finally was brought to an end with Galloway's long fly to Lane.

The Oaks lost two good chances to score in the fifth and eighth innings. In the fifth Mitze opened with a single and Goodbred did his bit with another single. But Snodgrass took care of flies from Menor and Middleton and Fromme pulled himself out of the hole when Lane fanned. In the eighth with one gone Lane singled and was thrown out at second when Murphy missed connections on his hit and run play. Murphy singled and stole second, but Miller could not come through with the old pinch hit again and his roller to Stovall ended the chance.

Mary Browne Wins Again at Seabright

SEABRIGHT, N. J., Aug. 4.—Two California women players staged the women's feature here today. Miss Mary Browne, former champion of the Seabright club, defeated Miss Louise Williams, local champion, in a 2 to 0 victory. Browne, who is paired with F. B. Alexander, also shared a victory over Miss Blumstein, former champion of the Seabright club, in a 2 to 0 victory. Browne, who is paired with F. B. Alexander, also shared a victory over Miss Blumstein, former champion of the Seabright club, in a 2 to 0 victory.

Dawson and Mace in Tennis Finals

WILLIE MACE, three times Southern California champion, and Ward Dawson, former doubles partner of Maurice McLaughlin, will be the finalists in today's tennis tournament. Dawson won his way to the finals by defeating the winning streak of Robert Eager, local junior champion, 6-2, 6-2. Dawson won his game from Snodgrass, 6-2, 6-2.

RITCHIE WINS HIS REDS HAVE SIX MEN FAREWELL BOUT WITH EASE HITTING AT .300 MARK

By H. E. HAMILTON, United Press Staff Correspondent.

NEW YORK, Aug. 4.—An article of the slump of the Cincinnati Reds averages published today show six members of Mathewson's team are hitting .300 or better.

Eddie Roush, Cincinnati outfielder, leads the league with .332; Cruise, St. Louis, follows with .327. Other hitters in the league are: Pittsburgh's Hornsby, St. Louis: Fisher, Pittsburgh; T. Clarke, Cincinnati; Kauff, New York; Rawlings, Boston; New York: McInnis, Philadelphia; Griffith, Cincinnati; Chase, Cincinnati; Neale, Cincinnati; Wilhoit, New York; Prendergast, Chicago.

Ty Cobb has far out ahead in the American league that he is scarcely discernable. He is hitting .383. Speaker is 28 points behind, at .357. George Sisler is in third place with .342. Other American league .300 batsmen are Hamilton, St. Louis; Ruth, Boston; Myers, Philadelphia; Russell, Chicago; Russell, New York; Roth, Cleveland; Baker, New York; McInnis, Philadelphia; Veach, Detroit; James, Detroit; and Rattigan, St. Louis.

Hornsby, St. Louis, has five victories and one defeat in his credit in the National league; Zentgraf, New York, has four victories and one defeat in the American league; Russell, Chicago, has won eleven and lost six.

West World Series Hopes Fading Away

Chances of St. Louis or Cincinnati being an opponent to Chicago in a real World Series match are fading away. The greatest revival of interest that this baseball classic has seen in many years dropped several points yesterday when Cincinnati and St. Louis each took a beating and the Giants increased their lead one more game in the race for the National League pennant.

The White Sox tightened their hold and gave further indications of ousting the Red Sox from the lead in the seventh inning. The Athletics, while the Red Sox were being ousted by the Indians.

White Sox hitless, but Gendall hit two and Ribero one for the White Sox; Ribero stole a base. Bodie hit one for the Athletics.

Herb Lewis each hit one for the Red Sox. Thomas went hitless.

Sothern pitched the Browns to a win over Washington, giving way to a pinch hitter in the seventh, but gaining credit for the win because the winning run was put over in that rally.

St. Louis hitless, but VHT hit a triple and a single, and Young hit a single for the Tigers. Peckinpaugh went hitless, made an error, and scored a run for the Athletics.

Single G Is Easy Winner in Pace

KALAMAZOO, Aug. 4.—The 2:07 trot which was the feature of the day was won by Grand Chimes, Grand Chimes, and Miss Perfection, was the feature of yesterday's Grand Circuit racing. The free-for-all race, which was expected to develop the thrills, proved to be but a walk away for Single G, whose ability to speed up in a stretch won him straight heats. The horses are now on their way to Columbus, Ohio, where next week's races will be held.

Single G, a 3-year-old, was owned by E. H. Kay (Cox).

Raymer, B. H. (McDonald) 1 1 1
Deer, B. H. (McDonald) 2 2 2
General Watts (McDonald) 4 1 1 2
Also started: Abbe Bond, Miss Abbe Brino.

Time: 2:07, 2:08, 2:07, 2:07.
Grand Chimes, B. H. by Kentucky Chimes (Edman) 1 2 2 1 1
Miss Perfection, m. m. by General Watts (McDonald) 4 1 1 2 2
Harrod's Creek, ch. c. (Engelman) 2 4 4 3 3
Two starts, B. H. (Doll, Donna) 1 2 2 2 2
Time: 2:05, 2:07, 2:04, 2:05, 2:04.
Free-for-all racing (Two in three heats): purse, \$200.
Single G, B. H. by Anderson Wilkes (Jamison) 1 1 1
Hal Roy, B. H. (McMahon) 2 2 2
Rex, B. H. (Gees) 3 3 3
Also started: Earl.

Time: 2:02, 2:03 1/2.

MANNAH STILL A BIRATE

PITTSBURG, Aug. 4.—Al Mannaux, suspended twirler of the Pittsburgh Nationals, will not pitch for the Upland team of the Delaware County League, as reported early today. He was still in Pittsburgh at noon and stoutly denied that he had jumped to the Independents.

Best Women Swimmers in West Compete in 500-Yard Race Tomorrow

Interest of the swimming fans of the bay region is turned to the P. A. A. 500-yard championship for women which is to be held in the outdoor pool at Idora park tomorrow afternoon.

Aquatic competition, for both men and women, is riding on a high wave of prosperity this season and seldom a week goes by without some big event being scheduled. And tomorrow's event is a blue ribbon affair. It has attracted practically all of the sportswomen hereabouts and the contest for first prize and the middle-distance title promises to bring out the very best staying qualities of the elite of every contestant entered in the race.

Standing out as a favorite contender for championship honors is Miss Vallejo, the girl who first conquered the Golden Gate in competition, winning over a large field last year and placing second in the 500-yard race in 1916. She is now the favorite to win again.

Five hundred yards is just to her liking and she will be at her best tomorrow. But there are three other women entered in the race who promise to give Miss Vallejo a battle royal for the honor.

There is Mildred Pollock, who on July 6 established a new mark for the San Diego bay swim; Miss Marie Deuch, last year's Coast champion in the 100 yards; and Kate Jahnke of the Ariel Rowing Club who is a recognized paddler of ability.

Miss Frances Cowells, present title holder, will be unable to compete and this leaves the field open to swimmers who have hitherto had to be contented with second or third place.

The officials of tomorrow's race which will be held promptly at 3 o'clock are: Referee, Herbert Hauser; starter, W. M. Coffman; timers, Wm. Umbeck, Walter Christie, John Deuch; judge, John D. Deuch; P. A. A. clerk, Robert Deuch; clerk of course, Geo. Johnson.

BYLER'S SHOWING CHEERS UP BEES IN 9-8 DEFEAT

SALT LAKE CITY, Utah, Aug. 4.—Bill Bernhard is figuring on getting out there and pitching another few innings for the Bees that seems to be the only way that he can keep them pepped up to winning ball games. Wednesday's inspiration died out yesterday when Lou Tom Hughes gave Bernhard some more reason to figure out what made him think early in the season that he had a pitch in him. The Angels went to yesterday and thereby evened up the count on the series, but the Bees have become so accustomed to seeing their club win ball games that they are not even willing to concede a rival club an even break on a series. The Angels and Bees play a double header today to clean up a postponed game of earlier in the season and tomorrow they play another doubleheader in accord with the new Coast League policy for doubleheaders in all league cities on Sunday.

Byler, the new catcher, secured by the Bees when the California club leased up a chance to pick him up after the close of the Northwestern League, had a chance to show what he could do yesterday. Byler after he came so far out in front that there did not seem a chance to catch them. Byler caught a nice line drive from Class AA ball did not seem to be a problem.

Bill Kenworthy was chased to the clubhouse to start the second inning and this seemed to rile up his teammates. So Fourstar started a great big inning by hitting out a circuit shot. That was just a beginning. Before that inning was over, there were two singles, three walks and errors by Gleason and Ryan to help the Angels along to their seven runs that counted for the game. The Bees were in front in the fifth hit of the inning and he managed to get by with-out further scoring in the inning, when Gleason was hit by a grounder from Ellis to force Meusel at second.

Just to show that Hoff was not a shut-out pitcher because he had brought that inning to close, the Bees scored in the next inning and put over two more. Roles started things with a single. Crandall booted a grounder from Davis to second base. Gleason hit a single to the plate and another error by Gleason let Davis score.

The Angels seemed satisfied with their nine runs and slowed up for the rest of the game. The Bees put their three over one at a time in the fourth, fifth and sixth frames. In the eighth Byler drove in a run with a double after Crandall had been hit by a pitched ball. But Byler could not get out of the inning. In the ninth frame, after Gleason had walked Casey, in the role of pinch hitter, failed to connect safely.

Oakland Golds Team Broken Up for Good; War Got the Cause

The war has broken up the Oakland Golds, one of the greatest basketball teams in the country, and an aggregation of players in the city of Oakland, Calif., has been formed. The Oakland Golds undoubtedly had the best five-man team in the world in 1915 and 1916, but the team never got a chance to play a game. The team was broken up because of the war.

George Hefte, who was pronounced the greatest individual player in the United States by members of the Illinois Athletic Club team which visited here in 1915, has just received a lieutenant's commission in the army. Hefte has been drafted. Tom Slusser is a sergeant in the quartermaster department of the army. Ed Rattner is not in the war, but has decided to give up basketball for good on account of his family. Claude Fitzsimmons is also a man of family and will not be available for any more of the game. "Musty" Hefte is entered at the University of California this year, and will probably play on the Freshman team of the University of California. He has already signed with the team. The surviving member of the famous club of the local Y. M. C. A., and he probably will not endeavor to get together a team capable of living up to the old "Gold" reputation.

Vallejo Football Revival Promised

VALLEJO, Aug. 4.—Manager Rod Lonan of the All-Star Vallejo football eleven announced today that he expects to have one of the fastest teams this fall that has ever represented this city since the "Winged V's" were in their prime. He has already signed a number of good players for his eleven and states that the first contest will be staged with the St. Mary's aggregation of placerville stars. Lonan expects the games as well as the sailors at Mare Island to organize eleven during the next few weeks and if such is the case local enthusiasts can look forward to some fine football games this coming fall and winter.

WOLGAST RECOVERING

HICAGO, Aug. 4.—Ad Wolgast, former lightweight champion, is recovering from his illness at a Wisconsin summer resort. Larry Lichtenath, formerly his manager, said today.

CONDITIONS AFFECTING THE HIGHWAY

Road conditions throughout the state as received at the Touring Bureau of the California State Automobile Association.

Motor vehicle act being strictly enforced in San Mateo, Stanislaus, Merced and Fresno counties.

Coast Route South—Leave Oakland via highway to San Jose. Four miles south of San Jose, road is in good condition. Seven miles on account of construction; follow temporary signs. Thence highway to Salinas and Chualar, dirt road to Camphora, highway from Camphora to within 10 miles of Kings City, dirt road to Kings City, thence dirt road to San Lucas and San Ardo. Highway San Ardo to within 5 miles of Bradley, thence dirt road to San Luis Obispo county line, thence highway to San Luis Obispo and thence highway to Santa Barbara. Los Olivos, fair dirt road. Los Olivos to Las Posas, fair dirt road. Los Posas to Elwood and highway to Santa Barbara. Los Olivos to Santa Barbara via San Marcos Pass, steep and rough. Santa Barbara to Santa Barbara via San Marcos Pass, steep and rough. Santa Barbara to Santa Barbara via San Marcos Pass, steep and rough.

Coast Route North—Leave Oakland via highway to San Jose. Four miles south of San Jose, road is in good condition. Seven miles on account of construction; follow temporary signs. Thence highway to Salinas and Chualar, dirt road to Camphora, highway from Camphora to within 10 miles of Kings City, dirt road to Kings City, thence dirt road to San Lucas and San Ardo. Highway San Ardo to within 5 miles of Bradley, thence dirt road to San Luis Obispo county line, thence highway to San Luis Obispo and thence highway to Santa Barbara. Los Olivos, fair dirt road. Los Olivos to Las Posas, fair dirt road. Los Posas to Elwood and highway to Santa Barbara. Los Olivos to Santa Barbara via San Marcos Pass, steep and rough. Santa Barbara to Santa Barbara via San Marcos Pass, steep and rough. Santa Barbara to Santa Barbara via San Marcos Pass, steep and rough.

Coast Route South—Leave Oakland via highway to San Jose. Four miles south of San Jose, road is in good condition. Seven miles on account of construction; follow temporary signs. Thence highway to Salinas and Chualar, dirt road to Camphora, highway from Camphora to within 10 miles of Kings City, dirt road to Kings City, thence dirt road to San Lucas and San Ardo. Highway San Ardo to within 5 miles of Bradley, thence dirt road to San Luis Obispo county line, thence highway to San Luis Obispo and thence highway to Santa Barbara. Los Olivos, fair dirt road. Los Olivos to Las Posas, fair dirt road. Los Posas to Elwood and highway to Santa Barbara. Los Olivos to Santa Barbara via San Marcos Pass, steep and rough. Santa Barbara to Santa Barbara via San Marcos Pass, steep and rough. Santa Barbara to Santa Barbara via San Marcos Pass, steep and rough.

Coast Route North—Leave Oakland via highway to San Jose. Four miles south of San Jose, road is in good condition. Seven miles on account of construction; follow temporary signs. Thence highway to Salinas and Chualar, dirt road to Camphora, highway from Camphora to within 10 miles of Kings City, dirt road to Kings City, thence dirt road to San Lucas and San Ardo. Highway San Ardo to within 5 miles of Bradley, thence dirt road to San Luis Obispo county line, thence highway to San Luis Obispo and thence highway to Santa Barbara. Los Olivos, fair dirt road. INDUSTRIAL NEWS ITEMS OF INTEREST CONCERNING THE MANUFACTURERS OF THE EAST BAY DISTRICT

Electricity Invades All Lines of Manufacture

GROWTH OF FACTORIES IN OAKLAND SHOWN BY HORSE POWER IN USE.

Five years ago a shoe repair shop opened at Fourteenth and Jefferson streets, which announced itself as an electric shoe shop—all work being done by machinery electrically operated. This was a novelty and met with much prejudice, as the handwork of the old-fashioned cobbler was considered superior. Today there is an electric shoe shop on nearly every corner and the cobbler has practically disappeared.

As the little cobbler with his handwork disappeared before the march of electricity in supplying power so has the old steam boiler and engine given place to the electric motor. Electricity settled for California the question of motive power. Electricity for power, coupled with oil for fuel, has made California an industrial state, where it was once purely agricultural.

There is not an industrial line in the growing manufacturing sections of the state in which electricity does not play an important part. There are manufacturing plants of every kind, from the smallest to the largest, all of which have thought of applying this modern energy to their purpose. A dredger operated wholly by electricity conveyed by a cable under the water, carrying power from shore, would have been regarded as a dream a few years ago, yet dredgers along the Oakland waterfront now seldom use steam for power.

In the making of the two most modern motor machines known to science, the automobile and the airplane, both of which are now being produced in Oakland, electricity is almost essential. The shipbuilding industry of Oakland harbor draws upon electricity for hundreds of horsepower units. The use of electricity as a motive power in Oakland factories has been the story of the growth of Oakland's industrial development. Oakland's importance as a manufacturing city grew with the introduction and development of electricity as applied to factory uses.

A diagram of the increase of the use of electricity as a motive power in Oakland factories might almost serve as a diagram to show the increase of this factory growth. In six years the increase in the use of electricity for motive power in Oakland, as shown by the records of the Pacific Gas and Electric Company, has been almost threefold.

The rates have always been low compared with the East and Middle West. Today the rates are still among the lowest in the United States. The Pacific Gas and Electric Company, which has pioneered the electric business, has so safeguarded the supply of current that it has ten different plants in the high Sierras so tied in and connected that when one source is interrupted another is available. Besides this, a steam standby of 30,000 horsepower, is maintained in Oakland. The future is well anticipated by this company, which is now developing on the Pitt river 250,000 additional horsepower. This assures prospective factories that there will be abundance of power, which is a guarantee of success.

Were it not for electricity Oakland would not have its clear atmosphere and its magnificent view from our foothill residence sections. One does not realize the large number of factories scattered about our waterfront. Were these using various fuels we would be continually encircled with a dense zone of smoke. But electricity eliminates the smoke nuisance and gives us a clean, attractive city.

The growth in the quantity and the scope of the use of electricity in manufacturing in Oakland is a most interesting story, and is shown by the following facts, taken at random from the records of the Pacific Gas and Electric Company: Automobile Manufacturing—Chevrolet Motor Company, established in 1916; initial installation, 130 horsepower. Increased in 1917 to 200 horsepower. All machinery is electrically driven. Bookbinding and Printing—Pacific Manufacturing and Book Company, Eighth and

2445 East Fourteenth street; 60 horsepower. Dunsen Standard Company, Second and Washington streets, 157 horsepower. Electric drive in these plants greatly reduces the fire hazard and the liability of accident to employees.

Quarries—Fausch-Crummey Company, Leona Heights; 125 horsepower; for rock-crushers, elevators, conveyors, etc. Shipbuilding Manufacturing—Electricity finds a particularly useful field in the manufacture and repair of ships. Motors are used to great advantage for driving compressors, which in turn supply air for the drills, chipping machines, forges and riveting machines. A motor drive makes it possible to speed up the output of the plant for rush work. Shipbuilding plants, during the past year, have been operating almost continuously twenty-four hours a day. Other applications of machinery are in the milling machinery and for all forms of machine tools.

D. J. Hanlon Shipbuilding Company commenced operations in 1916 with 300 horsepower. A great increase in business has necessitated an increase to 500 horsepower at the present time. This company operates a large drydock entirely by means of an electric motor.

The Union Iron Works in Alameda had an installed horsepower in 1916 of 500 horsepower, using considerable steam for various purposes. The steam has been entirely supplanted for power purposes and the present motors installed aggregate 4200 horsepower. This plant is operating under pressure 24 hours a day, seven days out of the week. They are now planning installation, which will double their output. This will mean over 8000 horsepower in motors.

Miscellaneous Manufacturing—The Linds Air Products Company manufactures compressed oxygen. Electric power to the extent of 140 horsepower was used in 1915. This was increased in 1916 to 200 horsepower and operates continuously twenty-four hours a day six days of the week, sometimes seven.

West Coast Soap Company, Twenty-sixth and Poplar streets, 35 horsepower. El Dorado Oil Works, Berkeley, manufacturers of coconut oil and allied products. Had installed in 1915 157 horsepower, using steam power for the balance. The plant is now operated almost entirely by electricity with a 450 horsepower in motors, operating twenty-four hours a day, seven days of the week, at a greatly increased output. All handling of the finished and unfinished product is by means of electric conveyors, elevators, motors, etc.

Pacific Pipe and Tank Company, East Oakland, manufacturers of wood stave pipe, tanks, etc.; installed in 1916, capacity now 500 horsepower in electric motors.

Oakland Lamp Works, Sixteenth and Campbell streets, manufacturers of Mazda incandescent electric lamps; electricity used exclusively; 235 horsepower.

Kawner Manufacturing Company, at Eighth and Parker streets, Berkeley, 89 horsepower. Aluminum Products Company, Oakland, 181 horsepower in motors. Electricity also used for heating and drying the product.

Inland Floor Company, Emeryville, 65 horsepower.

The Sacramento State Fair opens on September 8. The County Exposition Commission will make an exhibit, and expects the manufacturers to participate. Begin to get ready.

The Kimball Electric Co. has the contract for wiring and furnishing of lighting effects, in the several new and handsome stores at the corner of Tenth and Harrison streets. The improvements to this property at this corner is quite marked.

The Oakland-California Towel Co. has recently completed the installation of an electrically operated twelve-inch, double action Laitwiler Press-Pulling deep well pump, replacing a steam head pump. The expense of operation is considered nominal.

Union Machine Works has nice contract to equip a large shipyard in Portland. Considerable machine work for this contract is being made in the shop. Special tool and machine work is required. The equipment includes ship tools, ship jacks, hood screws, air compressors, engines and boilers.

The Sunlit Fruit Cannery at Berkeley finished work on apricots this week and is now actively engaged with plums. Peaches will have the platform next week. This extremely busy plant is furnishing most of its products to the U. S. government, which contracts for nothing under the best. This year's output will excel last year by three times.

"Pete" Della Vedova, 1309 Washington street, has had an avalanche of orders to fill on "sales cards" of different types. These run into season-end sales, clean-up sales, etc. He is now getting out some new ideas for fall styles. Using color harmoniously with the different types of merchandise for display along with unique and original characters made into striking prominence, has brought the work of this artist forward in the local profession as a card and sign painter.

C. Frauneder, 335 Eighth street, has his loyal bunch of employees working full blast on several jobs of large and varied types of construction. The inside wire partitions of the new Fagel Motor Company plant are being made in this shop. The wire partitions with ornamental design are being made here, also for the new postoffice branch in the Bacon building. A large contract for flat iron and wire ventilators is being made for a Watsonville Grammar School. Collapsible iron gates eleven feet high with several feet spread are under construction for a large garage in Richmond. Structural work of iron and wood truss work is a specialty of this company, many of the large iron industries contract with this company for the erection of their materials.

Manufacturers Discuss Bond Issues
Harrison S. Robinson, attorney at law, spoke to the manufacturers at their regular Wednesday luncheon on the bond issues coming up for consideration at the near election. In respect to the new bridge between Oakland and Alameda, the agreement for same, between the county of Alameda and the Southern Pacific Railway, was touched on with favorable mention. It is considered highly probable that the bridge will be of the bascule type. The abutments will be twenty feet high, with water mark on this allowing unobstructed passage way for eighty per cent of the boat traffic without the necessity of lifting the bridge. Electricity will be the power used in operating the bridge. The movable spans to be lifted by a total of 1,000 tons, a total bridge length of three hundred fifty feet. Three feet depth will be had in the channel. The cost of construction to be borne on a fifty-fifty basis by the county and railroad. Robinson very briefly touched on the new county buildings, to be provided in the near future for a two hundred bed hospital, which is not any too much to figure on for the future demand, which naturally follows with the growth of a community and with the outlook for Oakland's growth. Five hundred bed accommodations are now too much, which is figured on a basis of different departmental costs, akin to a finished city. The proposed institution will have modern hospital equipment. The construction of the hospital from a member of the hospital committee, to an audience of interested persons, was deeply appreciated, as shown by the question and answer asked about these two new bond issues.
